INDEPENDENCE DAY

"Independence" the word itself fills us with a feeling of freedom, liberty, rights and many more. Today, we enjoy all types of freedom, liberty just because we live in democratic and secular nation like 'India'. But the picture of our 'India' was not the same as today before a century. India was completely in the evil clutches of the English men. It was around 200 years we were being treated as slaves....

But the firm determination and a strong will of our leaders and freedom fighters, it was possible for us to get free from this entire slavery clutch. Independence was at last achieved on 15th August 1947. That was the day when we became free in all terms. Independence Day is observed as an important national day with national importance. Every year it is been celebrated with great joy, happiness, laurels, immense patriotism and as a sense of responsibility.

Making of SIA Express

Dr.Padmaja Arvind principal of SIA mooted the idea of starting a newsletter. The idea of newsletter has been in our minds since long and the decision to start it sparked off in a moment when the students came forward to work on it. This newsletter will communicate about the various activities and programmes conducted in our college and also in and around Dombivli. The idea is to create awareness among the students who are the future responsible citizens of the society. The modern corporate world needs individuals to be a multi tasker with social responsibility and commitment. This activity will bring the students together and create a team that would complete the task within the deadlines.

- 🏊 TABLE TENNIS
- 🏊 ZUMBA

STUDENT EDITOR...

The word 'editor' itself fills one with a great sense of responsibility within me. The editorial committee of SIA Express was a great one. Being an editor made me realize how important it is to be aware of what's going on exactly. It forced me to think about it. Being the editor of the first edition of SIA Express it also throws a challenge before so as how to amalgamate the ideas in a single edition. The Editorial Committee has proved that if we go hand-in-hand with everyone, a huge task can be accomplished. It was a great opportunity indeed which the FYBMS had grabbed so as to involve in something productive which would give a fruitful return in the form of knowledge and plenty of experiences. The whole team worked as one in each and every task with a huge responsibility. The idea of SIA Express, the amalgamation of ideas, responsibility of committee, and support of faculty members and maximum participation of the mass of SIA would surely make the newsletter a grand success and an informative piece for all.

-Sunena Soni

Interview of Mr. Joseph James and Mr. Krishna Kumar Sir

MR Joseph James said that, He said that he never worked hard to do anything, but did smart work which made him do his work peacefully. Till 2005, he was not doing anything but after 2005, they started to work smartly which helped them transform their business.

They plan from basics and make a team of experts for future and advanced research; if successful they will always try to make new products. They also started a company in china after having done a good research. Because of the on-going research, they are now planning to open a company in Saudi Arabia.

They always took difficulties as their challenge or tests. They believe that challenges, tests, these are the parts of our lives. The more we are tested the more we are successful.

They are always thinking positive and trying their best to become the no.1 LED Company.

They said that it is in the hands of the youngsters, how they opt to it. It was our duty to inculcate within the students the motivational words but how students take those words and develop ideas from them lies in their hands.

If you think that you are responsible for your life, then it will be noticed by everyone. So from today onwards we should concentrate on making our lives responsible. Everyone should think their self as a leader.

Everyone in this place is born for a purpose. We have a foremost aim of earning money. Money is like an ocean, and we can procure from it till it ends. Everyone has the equal right to earn money. So along with it we must also enjoy our life. Also they have appealed to the youngsters to face the world with a positive approach and also think positively and behave like same. Also we should contribute our 100% to the Institution which gives us so much.

Interview of Manoj Sathe, Vice-president of NSDL.

Taking Chandrashekhar Bhavne as an inspiration and a role model, Sathe sir entered into the world of capital markets. He embraced a number of difficulties with aplomb. When he started his journey in the organization, firstly it took 1 year for him so as how to get a proper grip over the language of financial markets. To begin with, he opened a demat account to understand the process and gain enough knowledge about the same. The next difficulty faced by them was as to how to reach out the investors which stood as wall before him. Also another problem that aroused was as to how to build the trust of the investors who would really feel to invest their money in the organization.

He introduced many amendments in the system to increase the efficiency of the organization. As a move to reform the NSDL started investor centric magazines for the sake of investors and as a guideline too, as an impulsive act, they gave 10,000 subscribers free magazines. They also started E-mail campaigns. Sessions and programs were held for the investors. They brought about many technological changes in the administration. He also introduced CMP apps which facilitated the investors gain knowledge of same which helped fill the potholes. His advice to the investors is to follow the 3 principles number of years is important for an investment, not to panic about the ups and downs and no greediness. He said one should follow the following golden rules to become wealthy start today, start investing and keep investing, mark way for yourself, set goals and rest.

Shrividhyalakshmi Shekhar Iyer and Poonima Shinde

PRINCIPAL'S DESK...

Dr. PADMAJA ARVIND

Since its inception, the SIA College of Higher education has always strived for the growth and development of the students at various levels. Be it academics, sports, human development, the institute does its best to provide opportunities to its best to provide opportunities to its students and staff with the intent of growth and progress.

Life is about enjoyment, exploration and experience. At the academic level we have adopted innovative teaching methods to motivate students to go beyond the recommended textbooks and get a wider view of the world waiting outside. We conduct short term courses in our college designed on the basis of the actual needs of the professional world.

We also published our college magazine 'Ratnottama- "A Journey Beyond Dreams...." Wherein both faculty and the students have contributed to content and design. On the popular demand of students community we are going to launch our newsletter 'SIA EXPRESS' on 15th August 2016.

CHAIRMAN'S VIEW...

Shri. Harihara S. Sharma.

Our Chairman Harihara Sharma sir as he is fondly called associated with SIA as a student in 1965 and subsequently he became the member of the association. The association grew exponentially and into a big Parivar. The Association started a school which was aided by the government and they decided to extend their services in the field of higher education. They got the land in 2006 and in 3 years the first phase of the college was ready. The main motto was to provide quality education for their Junior college students and also to the students from the nearby colleges. Sir believes in teamwork and a team can accomplish anything. In his interview sir reminisces about how the institution which started with 10 students and 3 streams has grown today. He added that the self-finance courses in the college were offered at university prescribed fee so that everyone can access better education. He also remembered about a girl student who joined ICICI bank after completing her graduation from the college. According to our chairman Harihara Sharma sir just every institution grow as a pillar, but SIA grows as "PARIVAR" which includes the staff, teachers, students, and management as a whole. At the end he just conveyed to the young stars that we should be always ahead in order to grab opportunities. Since, India is growing rapidly we should learn various languages. We should make use of the facilities and opportunities that are available in the institution.

BY SHREYA SRINIVASAN AND ANJALI IYER

Think and Answer

1] When was the seed for first Indian independence movement sown?

2] When was Purna Swaraj observed all over India?

Drop your answer in the drop box. One lucky winner with right answer will be selected and published with name and photograph through lucky draw.

MY EXPERIENCE IN SIA.....

I started my journey in SIA from junior college i.e 11th and 12th. Every friend of me started enquiring me about college admission and my preferences about colleges. I was attached with one intension of joining South Indian Association Junior college. Each and every person crossed in my life just kept on asking me sarcastically about my admission in to such a college which is just attached with school. I just joined this college because my preference was school attached to a college rather than a degree college attached to a junior college.

My journey of Std 11th started on 21st of July 2014. First day we experienced orientation. On that day principal madam gave instruction about the rules and regulation of the college. We had to hear some speeches from our seniors. Mrs. Shobana Nair mam gave a brief introduction about commerce faculty. Mr. Hariharsharma sir gave introduction about SIA College. I was very lucky and even keen to get admitted into such an institution which only focus on the betterment of student. To be more precise it's not an institution it's called PARIVAR where love and bonding will be existing till the last day of our college. After the orientation ceremony we had a lecture and the foremost lecture was taken by Mrs. Aparna Patil (economics). I still remember her first question of the journey after her introduction was "How many of you love economics?" Only few hands went up. She assured us "for sure that economics would be your favourite subject when you leave this institution" and she did the same on the last day of our 12th many of them scored above 50 in economics.

All our lectures were going well. Our teachers were outstanding. Our college organized many activities like cultural, inter-collegiate competitions and also had annual day celebration.

I made many friends throughout two years. We had a group and we took part in the activities that our college organized. I enjoyed this two years a lot. This college nurtured me.

I miss those days which we enjoyed learned, experienced, gathered knowledge and build specific bond between teachers which cannot be expressed with few words. I hope I would get some more special memories from this institution to be more precise in this parivar of South Indian Association of higher studies.

SAVE WATER

Kalyan and Dombivali, satellite cities of Thane District, may by August get additional 2,000 million cubic (TMC) of water to overcome shortage, the Maharashtra Government indicated in Legislative Council today.

The extra water will be provided by raising the height of Barvi dam, that provides water to MIDC along with some other small towns.

Sanjay Dutt (Congress), speaking during the calling attention motion, raised the water scarcity problem in Kalyan, Dombivali along with Dombivali MIDC, Ambarnath and Badlapur Areas.

He said after the completion of Morbe Dam, the overload on Barvi has declined and thus the surplus water can be diverted to areas under the Kalyan-Dombivali Municipal Corporation (KDMC).

Irrigation Minister Girish Mahajan assured the council that the government will soon convene a meeting on the issue.

Concerned over the water scarcity in KDMC areas, Deputy Chairman Vasant Davkhare instructed to hold a meeting of officials concerned on March 31st in his office.

Vijay Shitware, Mos for water resources said raising the height of Barvi Dam would lead to an increase in the storage capacity of water by 2 TMC. "If all goes well, KDMC will get additional water from June" Shitware said.

However, Dutt said two villages will get submerged if the dam's height is raised and local residents are opposing the move.

Shitware assured the house that the affected villages will be rehabilitated at the place of their choice. The minister said raising the dam's height will put an end to water scarcity problem in the nearby areas

REPORT BY NSS UNIT FOR BLOOD DONATION CAMP AND THALASSEMIA TEST.

23 JULY 2016

VENUE: SIA COLLEGE OF HIGHER EDUCATION

NSS unit has organised blood donation camp in association with Chidanand Charitable Trust on 23rd July 2016. Dr. Himanshu Trivedi from the trust has organised the camp for students on behalf of students.

109 blood bags were collected were collected from blood camps. They have also conducted Thalassaemia test for everyone younger and older. 70 people attended Thalassaemia test for a healthy life.

Blood donation camp was organised for social purpose to help the people who are in need of blood. NSS (National Social Scheme) volunteers played an important role in organising blood donation camp and Thalassaemia test for students as well as public. They created awareness between citizens about Thalassaemia disease. They have done awareness campaign in the college and adopted area. It was a proud moment for all of us that they have made some contribution for the society.

As English proverb indicates

"HEALTH IS BETTER THAN WEALTH"

SIA students proved it by enacting in a wise manner and promoting health related check-ups in the campus by creating a healthy atmosphere.

SAGARLI – AN AREA TO BE TAKEN CARE...

Sagarli is located 2-3 kilometres away from Dombivali station. It is located between Azde Gaon and Omkar Nagar. Sagarli has access to 3 roads namely Patharli Road, Gymkhana Road and Kalyan Road. According to the residents residing there, it is a beautiful place to live. SIA College and KV Pendharkar College are located here near Sagarli. There is a beautiful Balaji temple which looks like a replica of Tirupati Balaji. The recent blast which took place in MIDC, Sagarli was also among the affected area. Gymkhana and KDMC grounds are at a mere distance from Sagarli. It hardly takes 10 – 20 minutes to reach the station from Sagarli. Sagarli requires development in terms of infrastructure. The roads of Sagarli are damaged and hygiene is the major issue as wastes are dumped on the roads itself. In spite of all the odds the residents there are happy residing there.

TIME WAITS FOR NO ONE

To realize the value of ONE YEAR...
 Let us ask a student who failed in his examination.
 To realize the value of ONE MONTH...
 Let us ask a mother who has given birth to a premature baby.
 To realize the value of ONE WEEK...
 Let us ask an editor of a weekly newspaper.
 To realize the value of ONE MINUTE...
 Let us ask a person who missed the train.
 To realize the value of ONE SECOND...
 Let us ask a person who has survived an accident.
 To realize the value of ONE MILLISECOND...
 Let us ask the person who won a silver medal in the Olympics.
 Let us treasure every moment that we have
 And remember
"TIME WAITS FOR NO ONE"

BRAIN GAMES.....

i. GO SLOW THE ROAD AHEAD IS CURVING AND CHANCES OF ACCIDENT ARE HIGH.

-read the above sentence ahead once again..... I know you have would have got in the first time. The word "the" has repeated twice in the sentence at last I caught you!!!! Actually brain plays with us. When we are given command of reading the given text we just read irrespective of the fact of having doubled words.

ii. MARY'S FATHER HAVE 5 DAUGHTER. JUNE, JULY, AUGUST, SEPTEMBER.WHOES THE 5TH DAUGHTER?????

-You are confused or thinking. Let me clear if you are thinking October is 5th daughter then you are also one among all thinkers. Read the question once again Mary's father has 5 daughters then his 5th daughter is Mary. Brain gives random information. When you read the question brain just instructed you to think upon what's 5th daughters name but u didn't concentrated on the question.

iii.SET THE TIME FOR 30SEC LET YOUR FRIEND TO SAY 50 WORDS IN ENGLISH WITHOUT THE LETTER 'A'??

-maximum 8 to 10 words....
 So would you like to know the answer?
 One, two, three, four, five.....nine hundred and ninety nine. First "a" appears in the word thousand.

Choice Is Ours.....

A loving couple was travelling in a bus through a mountainous area. They decided to get down mid-way, so that they could enjoy the scenery. After the couple got down the bus moved on. The bus had barely moved forward when a huge rock fell on the bus from the mountain and crushed the bus to pieces. Everybody on board was killed

On seeing this couple said

Xxxxxxxxxxxxxx

Let us think before we continue reading

Xxxxxxxxxxxxxx

The couple upon seeing the bus crushed said " We wish we were on that bus."

Why do we think they said so ?

Answer

The couple said " If they had remained on the bus instead of deciding to get down the resulting time delay could have been avoided and the rock would have fallen after the bus had passed !!!!

Let us also think of others.

Many times in life, the opposite of success is not failure, it is Quitting.....

We can look at results or we can have reasons.....

CHOICE IS OURS !!!!!!!

KABALI REVIEW...

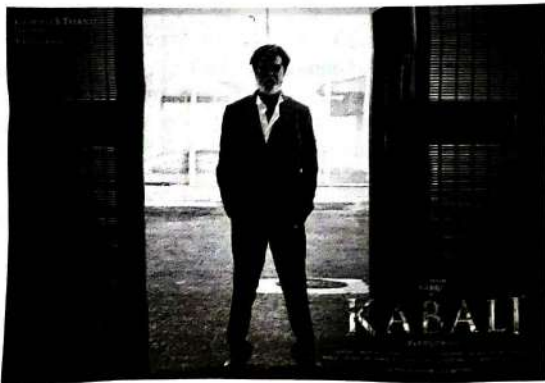

Every language has its own heroes and the most popular stories are woven around a hero. The film **kabali** bagged nearly 100cr nearly in three days of release. **22nd July 2016, the 100th** movie of one more kollywood movie bagged 100 crore. A hero is one who steps out of threshold of routine to encounter challenging circumstances on behalf of his community fight them, overcome them or draw such a benefit as would accrue to them the whole community through them-like **Rajinikant** does as kabali fighting for the rights of Tamils in Malaysia in the newly released film **kabali**.

The hype created by sponsors and advertisements for kabali was a bit more as it did not satisfy the heart of Rajini die-hard fans. The film supported a perfect gangster where Rajini played a versatile role. Rajini's film normally consists of action sequence, romance, emotions, comedy but this film does not satisfy all these criteria towards fans. At every step a hero acts in accordance with nobility of spirit. His goodness stands above any violence that may be the part of story.

As the review pictured about the movie criticising the film became a publicity for movie which bagged the seats of theatres. The song "**neruppuda**" was nearly dub smashed by many fans including Tamil upcoming hero Sivakarthekeyan which went viral in YouTube.

The famous dialogue from the teaser:

**TAMIL PADANGALULA MARU VICHUKITU MISAI MURUKITU
NAMBIYAR "DEI KABALI" NU SONNA UDANEY KUNINJU
SOLLUNGA YEJAMAN NU SOLUVANEY ANDHA MADIRI
KABALI NU NENAICHIYA DA..... KABALI
DAAAAA.....MAGIZCHI.....**

संगीत

संगीत की धीमी- धीमी धुन
मचलती है मेरा मस्ताना मेन
सुनते ही अशांत मन में शांति आती है
तेज हवा में झुमताई हुई पेड़ की पत्तियों में मस्ती आ
जाती है

संगीत में न जाने कैसा जादू है
चिंताओं को दूर करने का वजूद है,
पक्षी परिन्दों के बोली में संगीत,
पहाड़ों से बहती हुई नदियों में संगीत,
पहाड़ों के बीच में पुकारो तो संगीत
बहुत काम लोगों को आता है संगीत,
उससे भी बहुत काम, मिलेंगे, सच्चे मीत।

With best compliments

SNIPPETS LIFE...

WAY TO LIVE A PERFECT LIFE.....TIPS

Use magical words like 'Thankyou', 'please', 'sorry' and see miracle which happens in the world.
The preparation for tomorrow is doing your best today.
The best and most beautiful things in the world cannot be seen or even touched they must be felt.
Start by doings what's necessary; then do what's possible and suddenly you are doing the impossible.
What we think we become...
Let us sacrifice our today so that our children have a better tomorrow.
Happiness is not something ready-made. It comes from your own actions.
True happiness is to enjoy the present without anxious dependence upon future.
Most folks are as happy as they make up their minds to

be.
We worry about tomorrow
Missing the joy of today
Troubled about what may happen,
But tomorrow would not come into our own way
Life's pathway is ever uncertain
Right now is what yours and mine
We can love one day at a time.
Birth was not our choice
Death will not be our choice
But yes,
The way we live our life
Between two terminals
Of birth and death

IT'S ABSOLUTELY OUR CHOICE!

When a person grows form childhood to adult the pencil is replaced with a pen.
Someone asked god
"Who is your favorite person?"
God replied
"The one who has power to take revenge but chooses to forgive!"
"We are richer today if we have laughed given and forgiven".
To win the rat race you have to think and behave like a cat.
Your achievements die with you. Your deeds live as your legacy.
Life not have dealt you a great set of cards. But who says, the one with the better card will win.
Knowledge begins where education ends.
Life isn't complicated we are.....
Set goals not limits.
See a mistake as just a mistake .Not my or his mistake because mine brings guilty and his brings anger. Only mistakes brings realization and improvement.
Your character should be like a salt. Your presence is not felt but your absence is felt.
Don't dream about your beauty it spoils your duty dream about your duty it makes your life beautiful.

Money Can Buy

Abed but not sleep,
Books but not brains,
Food but not appetite,
Clothes but not beauty,
A house but not a home,
Medicine but not health,
Luxuries but not culture,
Amusement but not happiness,
A crucifix but not saviour,
A church but not heaven.

REALITY SHOWS – BOON OR BANE?

It is the age of reality TV shows. Reality shows have high entertainment values, these shows sometimes claim to change the life of the winners. What differentiates a reality show from documentaries and unscripted programs is the special attention given to the backstage, drama and action which occurs in the lives of the participants. But there have also been debts about how this show could be harmful. A lot of the shows are overly sentimental and manipulative of the audiences, emotions. They have no truth but build a fake world for the people. It is no offence to watch shows but its effects are felt later on by change in people's behaviour and nature. The concept of reality shows has been followed by western media. This shows clash with our cultural ethics and making people less tolerant and much more demanding, leading to break up of family systems and erosion of moral values.
So the questions still holds, Are reality shows a blessing or bane? I feel no matter what kind of genre, situational comedies, serial dramas or reality television, as long as the theme can give the audience a positive guideline in life, it is a good TV program. Such reality shows do not post any threat, but may give a boom to the falling careers of contestants.
They may also teach us the different aspects of life and some of the ways of human behaviour.

-SHREYA SRINIVASAN, FYBMS

BALANCE SHEET OF LIFE

What comes in is debit,
What goes out is credit,
My birth is my opening stock,
My ideas are my assets.

My views are my liabilities,
Happiness is my profit,
Soul is my goodwill,
Duties are my outstanding expenses.

Working is my prepaid expenses,
Friendship is my hidden adjustment,
Style and character is my capital,
Bad things I always depreciate.

Good things I always appreciate,
My mind is my bank balance,
Knowledge is my investment,
Thinking is my current account.

Behaviour is my journal entry,
Aim is to tally balance sheet,
Death is my closing stock.
