Sub: Project Proposal for the automation of examination process

Dear Mam

I, S. Sai Sree, working as an Assistant Professor in the Department of Information Technology and Mathematics would like to propose a development of software. It has been observed that the examination result processing can be automatized and all the reports in accordance with the policies and guidelines of University can be generated. I request you to give me an opportunity to develop the software for the benefit of the college. I would like to involve Mr. Sunil Gaonkar from office in the development of the software.

Thanking you

Sub : Designing website for The S.I.A. College of Higher Education

Respected Madam,

We S.I.A. Techlink want to develop a website for The S.I.A. College of Higher Education as the current website didn't prove to be substantial enough as it is created in JOOMLA also it doesn't provide easy formatting options as it is static in nature.

The site which we want to develop will take care of user friendly environment, proper content management, database management and dynamic nature as well as latest technology.

To develop such website, we need 1 computer to be allocated in S.I.A. Techlink (Incubation Center) with P4 processor and 2 GB RAM with XAMPP software installed in it comprising PHP6 and MySQL.

We would like to appoint Mr. Krishnan Ramaswami (Rollno IF15035) as a web developer and Mrs. Sandhya Pandey and Mrs. Nandini Kadam as a project Guide for this project.

Awaiting for the positive Response.

Thanking you

S.I.A. Techlink (Incubation Center)

**Respected Madam,**

Under the incubation center SIA TechLink of our college, as per the discussion with the Librarian Bharathi Rao Madam, there is a requirement for making the Library Digital.

After carefully evaluating the requirements, we would like to propose online project SIA-Granthalaya.

**The project will focus on developing the following:**

- a) To build a system that can receive input and generate automatically output in easy way and short time.
- b) To build a monitoring system that is able to monitor and manage all library operations efficiently.
- c) Give an opportunity to librarians to reduce mistakes that always happen during manual method.
- d) To store properly the library items in order to maintain their security.
- e) To enter and preserve details of the various issues and keep a track on their returns.

**Hardware requirements:**

Processor: Intel® Core™ i5-6400 CPU, RAM: 8GB, System type: 64bit OS

**Technology used :**

Front End: JSP and Servlet, AJAX and JDK 8.0 Back End: MYSQL

Web Page Design: HTML, JavaScript, CSS

Web Server: Apache Tomcat Web Server

**List of the students who will be working on this project:**

**SY BSc IT :**

1. Bhavesh Narang :IF16034
2. Darshan Naik:IF16032

Looking forward with anticipation for your kind approval.

*Sandhya*  
Thanking you

S.I.A. Techlink (Incubation Center)  
(Sandhya Thakkar)

<b>Project Name</b>	<b>SIA-Granthalaya - Phase II</b>			
<b>Guide Name</b>	K.V Ranganathan, Vignesh Iyer, Sandhya Thakkar			
<b>Background</b>	The web application manages and stores books information electronically according to students need. The system helps both students and library manager to keep a constant track of all the books available in the library			
<b>Objectives</b>	<p>a) To build a system that can receive input and generate automatically output in easy way and short time.</p> <p>b) To build a monitoring system that is able to monitor and manage all library operations efficiently.</p> <p>c) Give an opportunity to librarians to reduce mistakes that always happen during manual method.</p> <p>d) To store properly the library items in order to maintain their security.</p> <p>e) To enter and preserve details of the various issues and keep a track on their returns.</p>			
<b>Scope of Work</b>	<ol style="list-style-type: none"> <li>1. Create distinct product users based on their roles and permissions.</li> <li>2. Authenticate users at their login.</li> <li>3. Provide the list of books the users can borrow.</li> <li>4. Facility to reserve books that are available.</li> <li>5. A status page for all users to view books reserved by them.</li> <li>6. Facility to cancel the reservation for a book made earlier.</li> <li>7. A status page for all users to view books borrowed by them, their individual due dates and their individual penalties if any.</li> <li>8. An interface to view and edit the own profile.</li> <li>9. Provide method for adjusting account settings such as passwords.</li> <li>10. Mechanism to reset the password in case user forgets it.</li> <li>11. Providing interface for teaching and non-teaching staffs.</li> </ol>			
<b>Key Stake Holders</b>				
<b>Client</b>	Mrs. Bharathi Rao, Head Librarian, The S.I.A. College of Higher Education, Dombivli (East)			
<b>Project Manager</b>	Sandhya Kapil Thakkar			
<b>TimeFrame</b>				
<b>Modules</b>	<b>Description of Work</b>	<b>Start Date</b>	<b>End Date</b>	<b>No. of Days</b>
Module 1	<b>Student Promotion</b> : Promotion of students (Should be connected to e-sanchalan Server)	18th June 2019	10th July 2019	22

Module 2	<b>e-Resource Uploading</b> : Option for Uploading and accessing e-Resources like Option for uploading and to accessing the Question papers, E books and E journals in software	12th July 2019	2nd August 2019	21
Module 3	<b>Update /Edit</b> Options of important pages			
Module 4	<b>Report Generation in Excel</b> : Request details should be exported to excel			
Module 5	<b>Option for Overdue Books in Menu</b> : Option to send messages for overdue books through email	25th November 2019	4th January 2020	40
Module 6	<b>From and To Options</b> : From and To Option should be added wherever it is necessary (For eg July 2019 to June 2020, while calculating total expenditure on books			
Module 7	<b>Linking the Photos of the User on User Profile</b>	2nd June 2020	30th June 2020	28
Module 8	<b>New Arrival Entry</b> : Magazine and Journals Entry ( order, receiving entry, renewal notice etc)	4th October 2020	26th December 2020	83
Module 9	<b>OPAC -Books Catalogue</b> : ( Reference Books : Subject wise)	4th January 2021	10th June 2021	
			<b>Total Days</b>	<b>194</b>

<b>Technology Used</b>	<b>Front End:</b> JSP and Servlet, AJAX and JDK 8.0 <b>Back End:</b> MYSQL <b>Web Page Design:</b> HTML, JavaScript, CSS <b>Web Server:</b> Apache Tomcat Web Server
<b>Hardware</b>	<b>Processor:</b> Intel® Core™ i5-6400CPU, <b>RAM:</b> 8GB, <b>System type:</b> 64bit OS
