PASSION

FROM PRINCIPAL'S DESK

We at the S.I.A College of Higher Education have always strived for excellence by encouraging our staff and students to realise their potential talents and achieve higher goals. By focusing on all-round education including exposure to various sports, arts, culture, and humanities, we create students who are not just academically sound but also contribute for the overall development of the society. This approach is the reason behind the passion and interest exhibited by the stakeholders.

If we consider the academic level, the college has always been a front-runner in adapting to the rapidly changing needs and demand of the education sector. It has encouraged and facilitated the use of ICT tools-based lecture series to enable students to think beyond the book. It has also adapted modern methods based on application of knowledge so that students are able to understand and reason the dynamics of any theory. This is combined with short-term certificate courses to provide a complete package of theory and its application to the students. This will make them better equipped to face the professional world more confidently.

For the successful application of modern tools to teaching, the faculty is also rigorously working towards their knowledge and skill upgradation by attending various courses and training programs. The faculty are highly passionate and dedicated towards learning new skills that would transform teaching from traditional classroom-based to application-based. I am proud to say that my faculty is keen to make progress year after year, and many of them have published papers in national and international journals. Some of them are also pursuing their doctorates along with their teaching, which sets an example for the students and motivates them to aim

FROM PRINCIPAL'S DESK

high. We realise that knowledge is an ever-growing river, and we need to equip ourselves every day to keep pace with the world.

Although the college prioritises academics, I am proud to say that we do not compromise on cultural and sport activities at any cost. In fact, our college celebrates every festival and occasion with much funfare and enthusiasm. Be it patriotic days, Ganesh Utsav, Pongal, Marathi Bhasha divas, or any festival, our staff as well as students actively participate in trying to bring more creativity and uniqueness to each celebration. The student council is the creative head of our college, responsible for the cultural events. One of the most important events of our college is 'Sparklers' which is an inter-collegiate event where students from across the city are welcomed to participate in different competitions. It provides a platform for budding stars to showcase their talent and inspires confidence in them.

Our college also encourages sports and facilitates talented students to excel at various state and national championships. 'Dazzlers' is our college event where students across the city participate in different sports competitions. Both sparklers and dazzlers are completely managed and organised by the students of the college, which helps them learn key management and leadership skills that can be applied in their professional lives.

In addition to cultivating and channelizing the latent talents of the students, we also strive to bring out the humanitarian aspects in them by encouraging them to participate in social welfare activities of the National Service

Scheme, Eco club, Department of Lifelong Learning and Education, and Women Development Cell.

We are also actively engaged in providing placement training to students and we have conducted various placement drives in association with well-established companies like Barclays, Syntel, HDFC bank, ICICI bank, Mahindra's, Reliance, and so on. This helps students get experience of the real world which will enable them to easily get absorbed in the labor market post completion of their studies.

We are passionately working towards making this year another year of achievement for the college as well as a year worth remembering and cherishing for the students. We encourage the students to accept the challenge and make a mark in their lives.

Our college magazine 'Ratnottama' is an annual publication which brings out the creativity of our faculties as well as students who passionately work towards its content and design. This year theme of the magazine is "Passion".

Dr. Padmaja Arvind
Principal & Chairperson

CONVENOR'S NOTE

The college magazine 'Ratnottama' is an annual publication which puts together the creative efforts of our college students. The Magazine is a platform for the students to express their writing skill, poetic imagination and artistic flair. It is a channel for propagating and sharing thoughts, ideas and opinions.

The essential purpose of this magazine is to inform, engage, inspire and entertain diverse readership by presenting timely and honest portrait of our college, its history, its mission and its vision, its people, its programmes and its challenges. While the ultimate purpose is to engage and strengthen its readers association with college, the institution recognizes that it can do so effectively only by earning and retaining the respect and faith of its readers. The theme for this year is "Passion"

I sincerely thank the students who have unfailingly risen to the challenges and produced writings that made us proud.

Ms. Salochna Nagdev
Convenor

STUDENT EDITOR'S NOTE

It gives us immense pleasure to work for the institution whenever we get chance to show our creativity. I got the opportunity to work as the student editor for the magazine of our college this year and I am more than thankful for this opportunity.

Magazine is the medium to provide knowledge, different point of views, different perspectives about the theme. Every year the college magazine gets a positive response from all the students of the college and we get various articles in various languages for the magazine. The theme for this year was "Passion". Passion is priceless. Understanding or finding one's passion is a long journey. Every one of us has a passion but one requires a lot of devotion, hard work, and patience to master it.

It was a great experience being the editor of the magazine this year. My Magazine Crew has been a constant support to me and this edition of magazine was successful only because of their support and our united hard work. I hope our efforts to make this magazine successful are appreciated and liked by everyone.

Thank You!

Ishan Iyer
Student Editor

A DECADE OF LIFE WITH S.I.A.

My Journey with The S.I.A. College of Higher Education commenced with a handful group of 11 students, few teachers and small campus to a well-known institution today with 1500+ students and a huge, vibrant campus. It is a long journey where the students, parents and faculty members who believed in our dedication and perseverance achieved their ideals of empowering the tech savvy generation through education and extended their service to community by providing a holistic excellence.

After commencement of college in August 2010, we created the new landmark in Dombivli City amongst various well established neighbouring colleges and became one of the recognised institution committed and driven by the passion to bring out the best from the digital generation and has come a long way since then. Our college secured a place of joy and pride in the hearts of the people in Dombivli area and I am glad to see its growth and progress in terms of successful graduates with good placements.

I am very fortunate to be a part of this college and a witness of its growth not only in terms of numbers but also academic quality, extra activities, expansion of campus and many more things such as graduation ceremonies, students nostalgic memories of campus life, superiors and subordinates, existing and alumni students showering love, respect, honor, remembrances etc. I got opportunity to work in the college in various capacities where I could share my knowledge, ideas, skills, and experience with all the

stakeholders and contribute to the development of institution in terms of its vision from the beginning.

During the decade, I, along with my faculty team initiated and developed various systems, programmes, new activities every year for the betterment of students and achieved success in various areas such as academic progress, personality development, good placements, higher progression etc. The students co-operated very well with us.

My personality also developed along these years with many learning experiences, building leadership and communication skills, patience and perseverance etc.

I remember many classroom experiences, some very funny, some serious with different types of student batches with special reference to batch achieving 100 % results in Banking & Insurance stream for the first time in the entire college. Also working with new colleagues every year and the confidence which they have shown in me provided me with the motivation and enthusiasm to march ahead with new zeal. All this, I consider my precious memories and learnings.

There are many nostalgic memories, experiences and lessons which I gathered along the way to this successful journey which is still continuing with my alumni students, existing and new generation students and colleagues.

ASST. PROF. RANJANA MHALGI
IQAC Co-ordinator & Convener
Department of Banking & Insurance

The S.I.A. College of Higher Education is one of the finest institutions to work with. I have been associated with college since 2012 and over a period of time college has grown a lot in terms of student's strength and infrastructural facilities. College is blessed with the pro-active and ever supporting management and a dynamic principal. Over a period of time, I got exposure to different committees as a convenor as well as

a member which is a great learning experience for me. This year 2019-20 is marked as a decennial year of the college and I wish many more successful years of the college to come. I am blessed and happy to be associated with the college.

ASST. PROF. BABITA NAGDEV

Department of Commerce and Allied Subjects

The S.I.A. College of Higher Education is not just college for us but we consider it as our second home i.e. SIA PARIVAR. Our College Motto is "Knowledge is Power".

The SIA Management has planted a sapling of college in 2010-11 with 2 Courses i.e. BMS and BBI just with 7 and 3 students in respective courses. Today it has grown into big tree with so many courses and large number of students.

I have joined this college as Visiting Faculty in 2010-11 and then I become full-time faculty in 2012-13. I would like to share my journey experience here.

SIA Management is very supportive and quality conscious. They are fatherly figure for all of us. They always motivate and support us for upcoming challenges. They stood with us for any kind of help either at college level or even at personal level also.

Dr. Mangala Mukherjee was the first Principal of the college followed by Dr. Padmaja Arvind. Padmaja Madam is very dynamic and good at heart. She always helps us in showing clear directions in times of need. Under her leadership College had achieved B+ Grade by NAAC and Competitive Position in Dombivli City.

SIA Teaching and Non-Teaching Faculty are very cooperative and focused towards their goals. They always help each other in times of need. They are always ready to accept new challenges and innovation. We have organized various State and National Level Conferences, Workshops and Seminars.

Students of SIA College are very disciplined and cooperative. They always take part in various College level and Inter College Level Events. They have brought laurels to college by winning exciting Prizes at State and National Level Competition.

Last but not the least i.e., other Stakeholders of College who are always acting as back bone for progress of our college.

It was a great successful journey of decade. I had enjoyed working in various committees and events. We always try to become more better day by day and hope for taking our college at a higher level in near future.

East or West, SIA is the Best.

Jai Hind. Jai Maharashtra.

ASST. PROF. HASITKUMAR H. NAGARIYA

BMS Department

My Journey with SIA started in 2012, Just 2 years before that the college was started in 2010. when I joined the college had courses such as Bachelor of Commerce, Banking & Insurance, Bachelor of management studies, Bachelor of Information Technology. Now we have B.com Accounting & Finance, Bachelor of Mass Media and Master of Information Technology. More than 1500 students are taking education from our college. I got an opportunity to serve the society as NSS Program officer from 2012 to 2017 where we organized 5 NSS Camp over 5 years in rural areas and organized several

social activities. During my tenure as program officer we worked on projects like Computer literacy, Menstrual illiteracy, Blood donation, Tree Plantation, Aids Awareness and many more, Now as a Student Council Convener we are organizing several cultural programs, one of them is Sparklers a cultural fest most awaited event of our college when the campus becomes colorful & Vibrant. In Youth Festival organized by Mumbai University our students are showcasing their talents and bringing laurels for our college.

ASST. PROF. MAHESH KANDALKAR

Department of Banking and Insurance

“The fragrance of flowers spread only in the direction of wind. But the goodness of a person spreads in all directions.”

I have been working as a Mathematics faculty in The S. I. A. College of Higher Education since 2011. It had been an exciting experience along with anxious, nervous and victorious moments. Initially I had an opportunity to teach Mathematics in all courses. I am extremely thankful to our former Principal Dr. Mangala Mukherjee for being supportive and welcoming. As years went by, I got involved with many committees and eventually I was appointed as convener of first magazine committee. I was also a member of NSS committee which evoked a sense of social responsibility and made me aware of various things one could do to serve the community. Involvement in NSS and visits to the camp strengthens the bond between students and faculty.

Becoming a Head of the Department of Information Technology was one of the bright spots in my career. My journey as a HOD was

possible only because of the immense support I received from our Principal Dr. Padmaja Arvind and also from my fellow colleagues. Our Principal is very bold and brave women with great ideology and vision. Her energy, enthusiasm and focus on curricular and co-curricular activities propelled the institution to a greater heights.

The co-operation from all teaching and non-teaching is admirable. I would like to thank each one of my students for adding value to my life and I hope I have given something back to you as well.

This institution made me feel at ease and taught me to realize my strength and weakness. I will be forever grateful to our management for their appreciation, motivation, support and positive attitudes.

Thank you all!!!!

ASST. PROF. SREEKALA NAIR

Department of Information Technology and Mathematics

SIA TECH-LINK: INCUBATION CENTER

The research wing of the college works towards signing MOUs with different companies providing live projects for students. This gives an opportunity for students to get hands-on experience at handling different responsibilities and assisting in different activities. The Tech-link also conducts crash courses targeting specific technical skills for the students. These features make the tech link an important department especially for the IT department as it provides an avenue to put theory into practice. Highlights of the Tech-link are:

- Organized training session on MS-Word
- Organised two-day workshop on android app development
- Organised in-house 30-hour certificate course on JAVA, .NET, and PHP
- Organised Techno-quiz 2019: Intercollegiate quiz competition
- Organised session on Enterprise Networking
- Nearly 100 students benefitted from all the sessions

SOFTWARE SUCCESSFULLY DEVELOPED AND IMPLEMENTED BY THE STUDENTS:

- The S.I.A College Website
- Attendance Management Software
- Feedback Software
- E-Ticketing Software
- Integrated library management software: SIA Granthalaya
- SIA Ethenium (SIA College of Physiotherapy)
- Akshay Sales ERP Project

LIBRARY

A Library is a curated collection of sources of information and related resources.

- The college library has a profound collection of books, encyclopaedia, journals, CDs, e-books and other resources material like periodicals, newspapers and manuscripts.
- During 2019-20, the library had books and Journals magazines and Newspapers.
- To keep up with the technology, the library is supported with computers and internet facilities. Library users can access online databases through internet access.
- Library shares its resources under inter-library loan with other college's libraries. Catalogue of books and non-books material is available through the INFLIBNET N-LIST. This enables readers to access e-journals and e-books. Along with reference books, the college library also provides e-references.
- To make the students understand the importance of the library, National Library Day is celebrated on 12th August 2019. An intercollegiate Quiz Competition was organized under the Riddler's Library Club.
- The Library also celebrated Navratri Pooja along with the Student Council.

PLACEMENT CELL

The placement cell works with the motto of educate, empower and employ... In this regard, we foster linkages with industry partners to train our students on various skills and also bridge the gap between the academic learning with industry expectations and practices. The placement cell arranges for industry expert sessions wherein the stalwarts from industry conducts lectures on various current topics. In addition, to gain practical exposure to the academic curriculum in the industry internships are arranged for the students. The college has also tied up with Techno serve the employment and training partner of Tata group and Tata strive to conduct industry related certification programmes and also provide employment in Tata group of institutions as well as other top companies. Some of the achievements of the placement committee are

SUBJECT: CURRENT PLACEMENT REPORT MARCH 2020

Stream	Batch size	Date started	Date complete	Placed Number	Trainer

PARENT TEACHER MEETINGS

The S.I.A College of Higher Education works like a big family or parivar, encompassing everyone that interacts with the organization. One of the major stakeholders for the institution are the parents and guardians of the many students who take admission in the college. The college engages in periodic interaction with the parents during parent-teaching meetings to keep them updated about their ward's performance as well as the upcoming events and activities. The faculty is also dedicated towards maintaining contact with the parents over phone to inform them about all major issues. These efforts make the parents feel secured and instill confidence in the working of the institution.

- On 15th June 2019, PTA Meetings of all SY and TY Classes were conducted to provide information about continuous evaluation patterns, rules and regulations relating to the examination, online courses and placement.
- On 15th June 2019, PTA Meetings for SY and TYB&I were conducted. Parents were briefed about upcoming activities and plans of college. The details relating to lectures, exams, short term courses, etc. were shared.
- On 3rd August 2019, PTA Meetings of FY and SY Classes as well as for TYBCOM Class were organized for orienting FY parents about rules and regulations of college along with working of various academic and administrative activities. For SY and TYBCOM parents, papers of internal tests were shown and feedback was given by respective teachers.
- On 5th October 2019, PTA Meetings of all FY Professional Courses were conducted. Performance of Internal Evaluation, schedule of preliminary exam and dates of distribution of preliminary exam papers and the issue of hall tickets were discussed in the meeting.

PARENT TEACHER MEETINGS

ALUMNI

The Alumni Committee has conducted the following activities in the year 2019-20

- On 31st August Zumba session was organized by Alumni "Jayesh Telure" of the "Fitness Centro". 63 Students attended the session. They came to know the importance of fitness in life. Few students showed interest to keep regular sessions for it.
- On 7th December 2019, a Technical talk is arranged by the alumni committee for Information Technology Students. Session. Total 78 students attended the session. Jiten Parmar, Swapnil Varpe, and Varunsiva Pillai (All I.T. Alumni's) were the Resource person.

My Journey of "The S.I.A. College"

GEETA ADAVI
B.Sc. Information
Technology (2019-20)

I am very glad that i got this opportunity to share my experience with all of you. This college has given me such a soothing experience till my graduation. I have a earned alot of things but a coin always has a two sides depending how you tackle it. I was an mediocre student even though i was able to get a title of Student of the year.

With the encouragement of Padmaja Arvind mam, Ranganathan sir and All IT teachers Our batch got

the opportunity to organise First IT Tech fest . I was also Nss volunteer for 2 years under PO Renu mam got to learn how to be the strength of your team, how to lead your team and always be supportive. From my 2nd years onwards got the opportunity to work under Sia techlink , one of the benefit of being IT student is that in undergraduate level you get the exposure of Live project that will help you in shaping your career . Time flies during your good times and never expected our 2020 batch have to phase the major crisis due to this Covid.

Thanku so much Sia College I am very grateful that I was a part of the family.

RAVI S. SHESHADRI
M.Sc. Information
Technology (2019-20)

Before starting my journey in SIA, I was first confused about which stream to opt for after 12th Science. The principal of The SIA college was very helpful as she suggested me to opt for Information Technology stream. After which my college life started on August 2015, on the first few days I got to know about my colleagues and where they completed high school from (HSC).

The first year of my college went flying by learning and getting to know few basic concepts on computers and hardware. I still had one task to do "Exploring my college." So first year of my college passed by very quickly and I was catching up with the concepts and still adjusting to college life.

After completing my first year successfully , I went on to the second year of my college wherein I had to say goodbye to my friends who were opting for an engineering college and had got seats there. After this my life took a turning point , the new group of friends that I had made were very enthusiastic and highly motivated. With them I

explored the college, came to know few senior students.

The main part of my college life were the teachers, they were very helpful and would help us individually, they made sure that none of us were left behind and would sit extra hours after lectures to clear our concepts. The network admin faculty, he made sure that whatever we did and whatever problems we faced technically (computer hardware, internet issues and much more) were actually resolved.

The library club named 'Riddler' was the point which brought confidence and presentation skills in other ways the club paved way of grooming myself in all possible ways. It was because of the 'Riddler' library club I learned why extra-curricular activities are important. The library faculties were also extremely helpful making sure the club

members got everything they wanted.

Then I was in my final year of college where I got introduced to the 'SIA-Techlink' meant for students interested in building and creating projects in IT. Using this as an opportunity, I started my journey in programming code and logic building which is important when you actually are working in a IT industry. Here I came to know where I am actually lagging and how to improve myself professionally.

We had so much fun in those three years of my college life, we studied, played to our heart's content, bunked lectures and made the best use of the 3 years of our college. My college life was exciting where I experienced ups and downs like being on a roller coaster ride. There were exciting moments along with stressful, anxious, nervous, frightening and victorious moments.

ASHUTOSHKUMAR PANDEY

B.Sc. (Information Technology) 2019-20

One of my most memorable and best moments of college. Every faculty members are best One of the best Person of our college is Our Principal Mam she takes all the Effort so the Children get success in there life. She do everything for to make Students Perfect and Aware about Society and Corporate World.

Thanks Principal Mam For you Love and Care We love You and Miss You.

HITESH MISHRA

B.Com 2013-14

The SIA College Of Higher Education dombivili, is one of the finest institution for pursuing degree courses and I consider myself very lucky to have completed my B.com from this prestigious Institute back in 2014. Unlike other colleges, SIA focuses on overall development of a student and make him future ready to excel in corporate world. Best in class infrastructure, finest and very approachable faculty, strong industry

connects, lively and student friendly atmosphere, lot of extra curricular activities, 100% quality placements for so many years and still going strong. SIA changed my life by providing me a launching platform and in three years they nurtured a true professional out of me.

To conclude I thank SIA and its all faculty member for making me fit for corporate life and to excel in my professional life. For new batch of SIA, my simple message is feel proud of being at SIA and give 100% in next three years, the result & success will follow automatically.

LAVANYA IYER
BMS 2019-20

My journey at The SIA College of Higher Education has been like a rollercoaster ride, full of ups and downs and occasional adrenaline rushes, with a peaceful and proud feeling of completing the journey successfully.

I've been a member of the SIA family for 5 years now, 3 years in degree college, and my journey has been nothing but amusing. SIA may not have done some things according to its students, but definitely gave us some paramount life lessons- importance of punctuality, significance of appropriate behaviour, patience and specially diligence. I'm actually very glad to have learnt these things so early in my life.

My rollercoaster car has gone through so many downs throughout my college life, sometimes making me feel demotivated, but thanks to some of my supporting professors like Booma ma'am and Padmaja ma'am who realised my potential

and kept me on track constantly. My hard work surely kept my grades and curricular achievements very consistent, but I'd actually give the credits to my teachers who inspired me to walk the hard work path so that I become a better version of self at every point of life.

I surely didn't expect to miss the vibe of the college so much. Now that I've graduated and my mind consistently reminds me that I'm growing up and life is really happening, I surely do miss the canteen fun and library shenanigans with my friends. Scolding by my professors are missed the most for sure!

My journey at SIA has been so beautiful and interesting and I've learnt so much from my college and faculty, that I feel proud to firstly be a student of this college, and secondly for graduating as a better version of myself. SIA has surely stuck to its 'Knowledge is Power' slogan, by not only providing its students with bookish knowledge but also providing them with knowledge of the real world.

HARSH THAKKAR
B.Com 2013-14

Hello guys, I hope you are doing fine and enjoying your journey in the college. "College is an experience of a lifetime they say" I totally agree with this quote. I was student of B.com which was the very first batch of B.com in SIA college. I completed my graduation in 2014, and even after all these years whenever I remember my college days it feels like the moments are so fresh and it feels it was just yesterday when I completed my graduation. All the memories which I still carry with me of my friends and not only the friends, but the way professors nurtured me and other students to be excellent in studies. And when I talk about professors I especially remember about Salochna Ma'am, Babita Ma'am and Ranjana

Ma'am, that how they always believed in me and encouraged me to perform good in my studies and also encouraged other students as well. SIA has one of the best professors. Principal of SIA college is really focused on providing the best education to the students and has always encouraged professors to be at their best. Sparklers event which is organized by SIA committee is really fun, and I really appreciate it. As it is college life, so the fun side is also really important. And Sparklers event allows youth to show case their talents and to enjoy with friends at DJ night. SIA has really grown now and I feel proud that I was an student of this institution and completed my graduation from this college. The 3 years which I spent in college were really beautiful and I cherish all the moments. I hope you too enjoy your journey in SIA.

AKANKSHA NARVEKAR

B.Com (B&I) 2019-20

Around 5th June I got to know my 12th results which were not so good. So my dream to become a Doctor was shattered into pieces. I took admission in B.SC in K. J. Somaiya College somehow I managed to cope with my studies there. But then came every student's nightmare our internals. On 16th of September I had a sudden realization *I had an idea about it* science is not my cup of tea. So in middle of my first semester I decided with my family's guidance to change my course. I roamed around many colleges for admission but none of them was ready to give someone like me admission there. I was down hearted I really lost hope, even though I need to take a year gap. But I guess due to my mum's good nature and her good reputation with our neighbors', one of our neighbor I really thank him gave me suggestion to visit our college. My mother accompanied me very next day to visit my going to be new college. I was in this green top on verge of crying visited our principle ma'am Dr. Padmaja Arvind she gave me hope no one gave. She gave me a chance which I really needed. Even though my admission was not confirmed she allowed me to attend my very first lecture in Bachelor's in Banking and Insurance. It was of Reno Ma'am. Even today I remember how confused I was but slowly steadily I started liking my new course. I got admission somehow. I still thank to my friends who gave me their notes just a month before our SEM 1 examination. Due to my luck the examination was postponed for a month. I was scared as hell. Because my very first examination everything was on line. I was more scared about Accounts. Exam went by it came the month of December I enjoyed that month. My very first saree day, DJ nights, sparklers it was amazing. On 24th of December our results were announced. I

was sleeping like panda to be honest. I received a call from my friend in a sleeping voice I was like, "Bolo and Kya Hua?" My friend Rajnee literally screamed and said Akanksha you have cleared your examination not just by passing grade but with a B+. I swear I was never this much happy in those last few years but at that moment I was on cloud 9.

We had a presentation for Business Communication, it was my first presentation. The person who not able to speak in front of 3 people was able to deliver a presentation in front of a class. From that day I had no pause in my life. Ranjana Ma'am in my second year motivated me to give a speech in front of our college. It gave me motivation I started enjoying this moments from that day. I presented a paper presentation in our college, in various other colleges too. It was not possible without Ranjana Ma'am's motivation. Mahesh Sir always use to be strict with us during our lectures. We use to be little bit furious about it like normal students but now when I work in a corporate I now know it importance. Because discipline is necessary in every step of life without his discipline I would be doing some random things and would have found myself in most problematic situations. Then is our Renu Ma'am she was more like a friend to us than a professor she was strict during our lectures and for assignments, but when it came to enjoyment she always use to be first one. I use to be so engrossed in her lectures how time use to pass away I use to have no idea about it! There are many more professors of our college who helped me in this or other way. When it came to college and studies all of them were strict but when it came to fun times like Industrial Visit no one can beat our professors. I still remember how all of us were singing in train while coming back from or IV with Mahesh sir. How we use to play fun games during our free lectures.

To be honest I was a shy girl, with zero presentation skills, with zero dressing sense and communication skills. In my three years in these college I gained all of these important things which are needed for a person to crack an interview. Time went very speedily when I was in college on 6th March 2020, yes I'm from Batch of 2020 before that Covid Pandemic hit us like a bus we had other plans that's a different story, yes on 6th of March 2020 I gave my First ever interview in the Bank I always wanted to work in .I always wanted to work with Kotak Mahindra Bank. My dream was this close to become a reality. I gave my interview and guess what I cracked it. You know all of us in BBI were flashing our selected ID to everyone and proudly showing how we were selected in our dream Banks. All of us were sitting on stairs and were like *selected* and flashing those ID. To each and every person present. I Was amongst 10 Candidates who got selected for Kotak Mahindra

Bank. And first one in my college who was selected in Kotak. It was really a happy moment for me. Even today if there is any problem regarding my documents, I contact Ranjana Ma'am because I know she will guide me, she does she always helps. I'm really grateful to my Professors who punished me when I was wrong, who motivated me during my bad span. I thank Principle madam, who gave me a chance to prove myself. And my 3 friends who always helped me one who gave me her notes one month before exam, one who included me in her group, one who always defended me. I'm now an IRDA and NISM certified employee of Kotak Mahindra Bank on probation period but I would never have been the person I'm today without my college.

Those three years was an amazing journey for me. RBI visit, Industrial Visit, our lectures, I miss all of those days.

Thank you all.

RUCHITA RAI

B.Com (B&I) 2018-19

My journey with SIA college started in 2016 when I completed the intermediate and joined BBI Course, I was quiet excited for my college life like other students, timid but passionate from heart. I got many opportunities and platforms to showcase my knowledge, skills, talent.

I got to learn life skills which was the most important part of my journey through attending conference, seminars, participating in different types of activities which not only improves but also make you a better person. Whenever I was stuck I used to go to Professors which are always available for me.

In S.I.A. College, I got to learn the values, professional, discipline, and committed towards the career. I still remember the day when me and my friends

represented our College at the FICCI international conference at Mumbai Nariman Point organized by Chambers of Commerce. I was so happy and astonished to see how really the corporate world works and business is done. Not only in curricular activities, but my mentors supported me throughout the college years whether it's from simple doubt-solving session or participation in competition. They always motivated me and supported me in all aspects.

I really feel blessed to be part of such wonderful organization. Here not only theoretical teaching take place but good industry exposure is given. During my third year, I was selected for Kotak Mahindra Bank as an Assistant Manage,

I really feel proud to be an alumni of SIA Pariwar.

Thank you.

NIMISHIKA MANIKANTAN

B.Com (B&I) 2019-20

First of all I thank my parents and teachers, who introduced me to this wonderful institution and its fabulous mentors!

My Grades started improving from 1st year itself as we have well experienced, knowledgeable and dedicated teachers who always help us in academics. As we say "A Guru is the one who leads us to the path of light from darkness", here I was really blessed to have got exceptionally friendly and helpful teachers. Simple tips and Innovative teaching methods , used by all teachers make subjects easy to understand and learn and more importantly learning gave me happiness

I vividly remember being chosen as a Class Representative in the 1st month of College!

My skills and personality started developing practically from that day. Yes! The institution gave me an opportunity to discover the leader in me!

There is a famous saying "A journey of a thousand miles begins with a single step."

My leadership skills was honed and tuned by the institution, with constant support and encouragement from the Faculties who, continuously encouraged me to join other clubs and committees like Student Council, DLLE, Riddler's Library Club, and our dept 's Bankers and movers club to participate in academic as well as extracurricular activities.

This dept and college is not just a "Gnyandaatha",

its more than that. It gave me a platform for all round personality development.

The Bankers and movers club of the B& I dep organised different events like video presentation, Research paper presentation, One day seminar and workshops, sessions by industry experts and subject experts, bank visits, BSE and RBI visit etc. These events made me understand some of the complicated concepts in a more emphatic and enthusiastic manner.

We as students also get immense opportunities to participate in other committee activities like NSS and Sports and have won awards in district levels. We also participated in inter collegiate events outside of our college and won many prizes.

As we say "Ya esha supteshu jagarti", our institution made sure that we were active and always ahead of all the others in this competitive world!

"Excellence is the gradual result of always striving to do better" We excelled in our college education which is the stepping stone for our many professional success we are awaiting in our life!

"Winners Never Quit. Quitters Never Win" is a famous quote for continuous improvement and effort. I would add a line to it. If you join SIA, you will never be a Quitter!

I am really blessed to be graduating from SIA college.

Thank you SIA.

PRIYA GUPTA
BMS 2019-20

It was an amazing roller coaster ride in college. A class full of strangers, Ma'am and Sir's with happy faces and some senior's to welcome us. Slowly and steadily I got connected with few strangers who are now my friends for life. I used to love remembering those days where Lynette ma'am who used to teach us Business statistics in such a way that I never ever missed her lectures at all. I also would never miss a chance to mention tarun sir who was leading the HR Classes. He is extremely helpful and the way he used to teach us the subjects including examples, some class

activities was amazing. He used to patiently listen our problems and always help us to find a way out of it. Bhooma ma'am was the one because of whom we used to participate in various competitions and also win those competitions. She taught us like "how to wear your confidence and never underestimate yourself". I used to be one of the Head of our Library Club, where we used to conduct various activities, connect with different student and interact with them. We had various up's and down's in college life as well but that doesn't mean you are not you are not going to cherish your amazing days. Unless and until you don't experience those journeys you will never know it.

KRUNALI NATHWANI
BMS 2019-20

My journey has been a crazy, fun-filled learning adventure. I met many goals and accomplishments I set for myself but I also faced some challenges on the way.

My clg Life was full of twists and turns, ups and downs, and full of surprises. But when life's journey is smooth, life is beautiful.. There were exciting moments along with stressful, anxious, nervous, frightening, and victorious moments. My college years were genuinely surprising and a wonderful point in life where i took mature steps towards my future, meeting many friends, choosing our majors, finalising our careers, and

preparing for the challenges of the real world. This has been an amazing ride, no matter the struggles I have faced. In these three years of our college life, I have come across lots of struggles; be they our grades, or adjusting with the environment and new friends. There were times when I had faced challenging situations such as learning to submit assignments online, making powerpoint presentations, presenting research papers, and being stressed for semester exams.

I also had to deal with many challenges, obstacles, and difficulties to get to our destination and goals.. We should always be positive, no matter what the twists and turns. Enjoy the rise, the falls, and everything..

STUDENT COUNCIL

NSS ACTIVITIES

The National Service Scheme (NSS) instills social responsibility and creates responsible citizens through community services. This journey helps the students to develop different skills like leadership, team work, etc. It also helps in building the nation. NSS unit of our college has organized various activities during 2019-20. Highlights of the activities are as follows:

- On the occasion of World Environment Day on 5th June 2019, tree saplings were distributed and a skit was also performed on awareness related to environmental issues in Sagarli Village. 14 volunteers participated in the good cause.
- On 17th June 2019, a Pulse Polio Drive was conducted with the help of Kalyan Dombivli Municipal Corporation (KDMC) Primary Health centre in Dombivli East. As many as 1105 children were benefited from this social drive.
- On the occasion of International Yoga day, a session was arranged for the students and teachers on meditation and stress management.
- On account of International Yoga Day, Students' Council and N.S.S. together organised Chair Yoga on 20th June 2019. It was conducted in five batches from 8.00 a.m. to 1.00 p.m. 289 students & 16 Teachers performed Chair Yoga.
- International Yoga Day was celebrated on 21st June 2019 in association with Patanjali Yog Trust. 82 students & 6 teachers performed Yoga on this day.
- An Anti-Tobacco Pledge was taken on 11th July 2019 by a total of 310 students in association with the NSS cell of Sambhanda Health organisation and University of Mumbai at our college. This pledge was initiated to keep students away from socially undesirable products.
- Organised a Poster Competition on 'Population' on the occasion of World Population Day, 11th July 2019. A total of 18 students participated in the competition. This helped to sensitize students with the consequences of overpopulation.
- Organised a Blood Donation Camp on 13th July 2019 with the help of the NSS Cell of the University of Mumbai in collaboration with Chidanand Blood Bank. As many as 111 people donated their blood for the social cause. This will support emergency conditions when Blood Banks require Blood.
- An Eye Check-up was conducted on 13th July 2019. 290 people got their eyes checked by specialists.
- A Dental Check-up was conducted on 13th July 2019. More than 100 people got their teeth checked by specialists.
- Observed University Foundation Day on 19th July 2019. Students were oriented with University song and a PPT was shown to students introducing University of Mumbai. 85 students participated in the event.
- Observed Birth Anniversary of Chandrashekhra Azad on 23rd July 2019. A PPT was shown to the students on his life. This was done to inculcate patriotism among students.

- Observed Kargil Vijay Diwas on 26th July 2019. A Parade was performed by the students along with Candle Lighting to the martyrs.
- On 28th July 2019, extended a helping hand to Shivai Balak Mandir School for conducting a Marathon. Volunteers helped to conduct the marathon smoothly. Certificates were received by the volunteers for helping the community.

There in all 501 students from different colleges participated in various events. The S.I.A Higher Education, Dombivali got best college award for maximum participation. The event was concluded on 20th December, 2019 by Christmas celebration.

DAZZLERS 2019-20

Dazzlers -an Intercollegiate sports tournament 2019-20 ,which was held on 15th & 16th December at The S.I.A college premises

In this tournament , total 11 events held that were as follows football, volleyball, box cricket, tug of war, carrom ,kabaddi for boys & kabaddi for girls , strongest boy, strongest girl, Pubg, ludo. Around 40 plus colleges participated in this event with 2000 plus students.

- In Football event with great enthusiasm MODEL COLLEGE became winner & S.I.C.I.E.S COLLEGE, AMBERNATH runner up.
- The S.I.A COLLEGE became winner of Volleyball event followed by BIRLA COLLEGE as runner-up.
- In box cricket SAKET COLLEGE became winner & MODEL COLLEGE became runner-up.
- The S.I.A COLLEGE became winner & runner-up of tug of war.
- In carrom Mayur kamble (from R. V NERURKAR COLLEGE) became winner followed by Manish Patel (I.T.I COLLEGE) runner up.
- K. M. PATEL COLLEGE became winner of Kabaddi boys & MANJUNATH COLLEGE as runner-up .
- PRAGATI COLLEGE became winner of the Kabaddi girls match with D.K.V.C COLLEGE as runner-up.
- SHOIB (M. S. COLLEGE) winner of strongest boy event & PRATIKA RAMRAJE (THE S.I.A COLLEGE) received the title of winner of the strongest girl.

INDUSTRIAL VISIT

The industrial visit for the academic year was organised to Hyderabad between 19th January to 23rd January 2020. The tour was organised through P2P Tours. There were 91 students from BCom, BMS, BBI, BSc-IT, MSc-IT who were accompanied by 2 faculty members Mrs Booma Halpeth and Mr Mahesh Khandalkar along with two non-teaching staff Ms Mary and Ms Yogita.

The group left for the tour on 19th Night by Hussain Sagar Express from Mumbai CST and reached Hyderabad on 20th January. The tour consisted of visit to NTR Garden, Hussain Sagar Lake and Lumbini Laser Show on day 1. On day 2 a one day tour to Ramoji film city was organised where a tour various shooting sets was done. In addition the students had live experience of watching movie production where in shooting the scenes, music mixing and premiere were covered. A DJ night was organised in the hotel on day 2. On day 3 the students were taken for a visit to an LED Indus Chip and LED manufacturing unit where they were taken through the process of manufacturing LED components which were used for manufacturing various products. The students were also taken to visit the historic Sallarjung Museum followed by a trip to Charminar. The students went for shopping in Charminar and carried back several gifts along with good memories.

The tour completed on 23rd January 2020 and students left for their home from Kalyan station.

CHEERIO

Cheerio - Farewell for Third Year Students was organised on 30th April, 2019. Students shared their college experiences. Second year students have arranged games for third year students. TYBCOM/B&I/BMS/Bsc.IT students attended Cheerio.

"विठ्ठला गजर हरी नामाचा झेंडा रोविला" अशा अभंगांच्या नामस्मरणाने साऊथ इंडीयन महाविद्यालयाचा परिसर दुमदूमून गेला होता, कारणच तसे होते, 12 जुलै 2019 रोजी आपले महाराष्ट्राचे लाडके दैवत असलेल्या पंढरपूरच्या विठ्ठलाची एकादशी असल्याने विद्यार्थ्यांमध्ये उत्साहाचे उधाण आले होते. मराठी वाङ्मय मंडळाने आयोजित केलेली दिंडी, भजन यामध्ये १७५ विद्यार्थी व प्राध्यापकांनी उत्साहाने सहभाग घेतला.

- * १४ ऑगस्ट २०१९ ला महाविद्यालयातील मोठ्या ऑडिटोरियम मध्ये मराठी वाङ्मय मंडळाने 'श्रावणसरी' या कार्यक्रमाचे आयोजन केले होते. यामध्ये कविता वाचन आणि गीत गायन सादर केले गेले. दहा विद्यार्थ्यांनी आपल्या कलागुणांचे उत्तमरित्या प्रदर्शन केले. कार्यक्रम रंगतदार झाला.
- * २० फेब्रुवारी २०२० रोजी महाराष्ट्राचे लाडके व्यक्तिमत्व छत्रपती शिवाजी महाराजांची जयंती मोठ्या उत्साहात साजरी करण्यात आली. याच दिवशी आंतरमहाविद्यालयीन 'रसयात्रेचे' आयोजन करण्यात आले होते. दोन महाविद्यालयांनी यात सहभाग घेतला होता. मराठी चित्रपट विद्यार्थ्यांना दाखवण्यात आला.
- * २७ फेब्रुवारी २०२० रोजी कुसुमाग्रजांच्या जन्मदिनी जागतिक मराठी भाषा दिन साजरा केला गेला. 'अमृतातेही पैजा जिंके' अशी आपली मराठी भाषा, तिचा गौरव विविध कार्यक्रम साजरे करून केला गेला. लेझिम च्या गजरात, मराठमोळे वेष परिधान केलेल्या विद्यार्थ्यांनी महाविद्यालयात मिरवणूक काढली.

अशा प्रकारे कार्यक्रमाची सांगता दिमाखात झाली.

PRATHIRAMBH (JUNIOR COLLEGE FEST) 2019-20

To mark the journey towards decade The S.I.A College of Higher Education had organized several events to earmark the journey of 10 years. On 29th September 2019 a cultural evening and a heritage walk was organized and the students actively participated and showcased their skills. The heritage walk covered the journey of 10 years through models, photographs and exhibits by the students. On 30th September 2019 "Prathirambh 2019- Passion to excel "junior college fest was organized where students from several junior

colleges across thane district participated. The event focused on Literary, visual arts, performing arts, IT games and career guidance workshop. Competitions included Debate, essay writing, elocution, Rangoli, Mehndi, poster making, dance, singing, mono act, street play and instrumental music. A total of 1221 students participated in the event. DKVC college from Thakurli won the best college award with maximum participation in the events

“IMPACT OF COVID-19 ON SECTORS-FARMING, HEALTH-CARE, AVIATION, ECONOMY, ENTREPRENEURS, BRANDS ETC.”

1st Place

Mr. Shailesh Vaman Gaikar,

S.Y. B.Com, SSS (P), Matoshree Velbai Devji Hariya College of Arts, Commerce & Science, Mohane Road, Shahad West.

India is already running short on its GST revenue collection , and the coronavirus scare could make matters worse. India has a population of 1.33 billion people. The Government of India is not in a rush to make any drastic changes in policy and offer tax relief (even though India Inc. leaders are calling for cuts in import duties). The Government has, however, announced an extension in fillings of GST for financial year 2018-19 until June 30,2020. India has also rescheduled the introduction of mandatory e-invoicing until October 1,2020.

Coronavirus outbreak was first reported in Wuhan in China on 31 December ,2019. Coronavirus (Cov) is a large family of viruses that causes illnesses. It ranges from the common cold to more severe diseases like Middle East Respiratory Syndrome (MERS-COV0) and Severe Acute Respiratory Syndrome (SARS-COV).

The novel coronavirus is a new strain of virus that had not been identified in humans earlier. WHO is working closely with global experts, Governments ,and other health organisations to provide advice to the countries about precautionary and preventive measures.

According to a survey, covid 19 is having a negative impact on Indian businesses. Over the coming months, several jobs are at a high risk of becoming redundant as firms are looking for reduction in manpower. Further, it is reported that covid -19 crisis has caused an unprecedented collapse in economic activities over the last few weeks. The current situation is having a 'high to very high level impact' on the business sector. Further,70% of the surveyed firms are expecting growth in sales in the fiscal year 2020-21. According to the world bank assessment, India is expected to grow 1.5% to 2.8% and IMF projected a GDP growth of 1.9% for India in 2020. The global economy is affected by the covid pandemic, the worst recession since the great depression in the 1930s. Also, we can't ignore the impact of lockdown to contain the pandemic which hit several sectors including MSME,hospitality ,civil aviation ,agriculture and allied sectors.

A 2019 Joint report from the World Health Organisation (WHO) and the World Bank estimated the impact of such a pandemic to 2.2% to 4.8% of global GDP (US\$3 trillion). That was well before the world knew of covid 19.

How covid 19 will impact the economy–The world is at a standstill. Major economies have imposed

lockdowns. 2020 will be a horrible year in terms of earnings. Almost all businesses around the world have taken up loans from financial institutions. After covid 19, you may see a major surge in the numbers of NPAs around the world. Due to loss of income and livelihood, many people around the world will fail to pay their mortgage. This could create a 2008 like housing crisis.

India and China could survive- China's foreign exchange reserves stand at US\$ 3.107 trillion. China can easily bail out banks and major corporations in case of an economic fallout. We are assuming that India will survive economic recession if covid 19 doesn't become a major issue in india. India doesn't depend on exports all that much for its GDP. So if global consumption slows down it will not have a significant impact on India's economy.

Export contribution to GDP- The share of exports to India's economy came down from close to 15% in 2014-15 the year the PM Narendra Modi's Government took charge at the centre, to 11% in 2018-19. Centre's foreign trade numbers revealed overseas shipments had hit a record high in financial year-2019. The scenario has changed after the Coronavirus outbreak. Moodys cuts India GDP growth forecast to 4.6% for financial year 2021 citing weak private consumption.

GDP Growth Rate- The Organisation for Economic Co- operation and Development (OECD) has slashed india's growth forecast for 2020-21 by 110 basic points (GDP) to 5.1%. Business confidence, financial markets and the travel sector has been affected including disruption to supply chains.

Pharmaceuticals- Pharmaceutical industry has deep linkages touching the supply chain of raw materials of drugs and medicines. A significant portion of the pharma industry is located in Himachal Pradesh. Active pharmaceutical Ingredients (APIs), also called bulk drugs are needed for pharmaceuticals manufacturing. The Hubei province of China, the epicentre of the coronavirus, is an API manufacturing hub. India is

heavily import dependent for APIs from China.

Automobile industry: China is one of leading suppliers of auto components in India accounting for 27% of the total imports .The coronavirus is expected to have an impact on the Indian automobile industry which is already suffering due to low production rate, market conditions and on account of the impending changes over BS-VI emission norms from April 2020.

Stock Market- On 28th Feb,the Indian stock market registered one of its worst crashes in a single day. Indian indices fell over 3.5% marking the second biggest fall in sensex history. The sensex's worst fall in history was on 24th August 2015, when the indices fell 1,624 points on the face of a slump in the Chinese markets and rising crude oil prices.

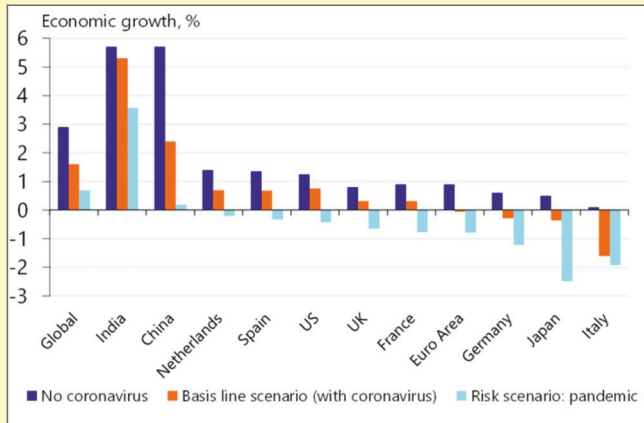

Tourism- India is big on cultural and historical tourism, attracting domestic and foreign nationals throughout the year. It does not come as a surprise that a large number of confirmed covid -19 cases in india include foreign tourists. But with visas being suspended and strict lockdowns, the entire tourist industry which included hotels, restaurants, agents and tour operators is expected to face losses worth thousands of crores. Experts believe the tourism industry is likely to take a massive hit.

Aviation- After the government of india indefinitely suspended tourist visas, airlines are said to be working under pressure. Nearly 600 international flights to and from India were cancelled for varying periods. Around the world domestic flights have been canceled, leading to a sharp drop in airline fares,even on popular local routes. Private airport operators have requested the Government to grant permission to impose a nominal passenger facilitation charge on airfares to cover the increased operating cost.

Agricultural- Producers are particularly hard hit with returns on produce varying from one-third than usual or a complete loss. In a number of districts, inter-state trade in commercial crops or

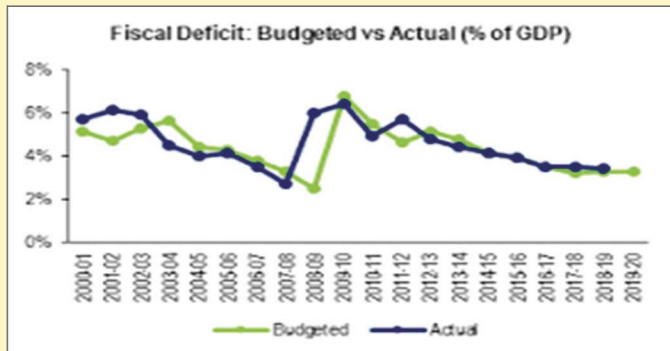

proximity to urban areas provides market access and better price. These are often due to initiatives of individual farmers rather than direct state support. This is often the case of crops like onions ,cotton mango, inland fisheries, flowers and vegetables.The rise in labour costs and lack of access means that farmers are staring at huge losses and hence allowing crops to rot in the fields, a better stop-loss mechanism. Those who have avoided a complete loss barely eke out any money to cover the cost let alone household maintenance or land lease rates.

**Global Economic Impact of covid-19
Economic Growth (%)**

Given the distress situation across sectors today, there is an economic as well as moral case for a stimulus, say ,a Rs.10,000 cash transfer to every poor and lower middle class household. But unfortunately, there is little headroom for either the centre or the states to spend their way out of the crisis.

NET FINANCIAL SAVINGS OF HOUSEHOLDS (% OF GDP)

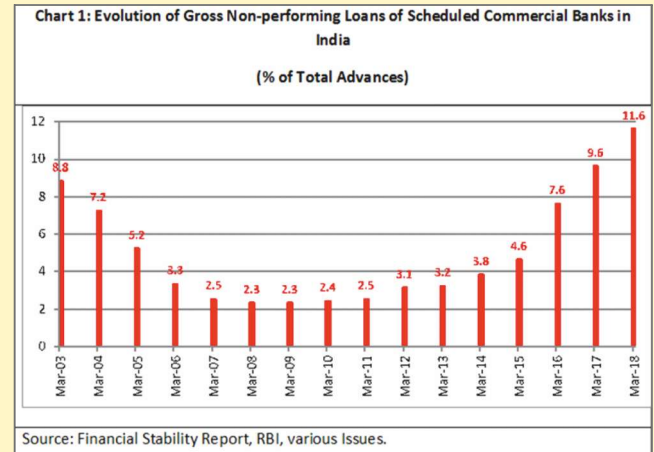

But another major concern is the financial liabilities of the household that include loans taken from banks and non-banking financial companies .These have almost doubled from Rs 3.85 lakh crore to Rs.7.66 lakh crore between 2015-16 and 2018-19.

**“IMPACT OF COVID-19 ON SECTOR'S FARMING, HEALTHCARE,
AVIATION, ECONOMY, ENTREPRENEURSHIP.”**

2nd Place

Article by Ms. Janhvi S. Mali,

SYBCOM, Lala Lajpatrai College, Mumbai.

Corona viruses are a group of related **RNA virus** that cause diseases in mammals & respiratory tract infection that can range from mild to lethal . Mild illnesses that include some cases of the common cold, while more lethal varieties can **cause SARS, MERS, and Covid-19 . Symptoms in other species vary, in chickens, they cause an upper respiratory tract disease, while in cows, pigs they cause diarrhoea .**There are as yet no vaccines or antiviral drugs to prevent or treat human corona virus infections .

During these challenging times, how does Indian Agriculture respond to the crisis and how do government measures affect **140 million** farm households across the country and thereafter impact the economy of a very important country in the developing world ? We assess the immediate challenges that **Covid-19** has posed to the **farm sector** and suggest mitigation measures to ensure a sustainable food system in the post-crisis period .

Immediately after the nation-wide lockdown was announced, the Indian **finance minister declared an INR 1.7 trillion package**, mostly to protect the vulnerable sections (including farmers) from any adverse impacts of the **corona pandemic** . The announcement, among a slew of benefits , contained advance release of **INR 2000** to bank accounts of farmers as income support under **PM KISAN Scheme**. The Government also raised the wage rate for workers engaged under the **NREGS**, world's special scheme to take care of the vulnerable population, **Pradhan Mantri Garib**

Kalyan Yojana (Prime Minister's Scheme for welfare of the poor), has been announced for which a separate **PM-CARES** (Prime Minister Citizen Assistance and Relief in Emergency Situation) Fund has been created .

The economic shock will likely be much more severe for India for two reasons. First, pre **Covid-19**, the economy was already slowing down, compounding existing problems of **unemployment, low incomes, rural distress, malnutrition, and widespread inequality** . Second India's large informal sector is particularly vulnerable. Out of the national total **465 million workers, in 2017-2018**, lacking regular salaries or income, workers would be hardest-hit during the lockdown period.

Here , I focus on the likely impact on agriculture , supply chains, food and nutrition security and livelihoods. There are disruption in supply chains because of transportation problem and other issues . Prices have declined for **Wheat, vegetables, and other crops, yet** consumers are often paying more . Media reports show that the closure of hotels, restaurants, sweet shops, and tea shops during the lockdown is already depressing milk sales. Meanwhile, poultry farmers have been be badly hit due to misinformation, particularly on Social media, that chicken are the carrier of Covid-19.

Keeping Supply chains functioning well is crucial to food security . It should be noted that 2 to 3 million deaths in the Bengal famine of 1943 were due to food supply disruptions not a lack of food availability . Farmers must have continued access to market . This can be a mix of private markets and Government procurement. Small poultry and

dairy farmers need more targeted help, as their **pandemic- related input supply and market-access problems are urgent.**

The lockdown has choked off almost all economic activity . In urban areas, leading to the widespread loss of jobs and incomes for informal workers and the poor. Estimated by the centre for monitoring Indian Economy shows that Unemployment shot up from **8.4%** in midMarch to **23%** in the first week of April . In urban areas, unemployment soared to **30.9% as of April 5** . The shutdown will cause misery for informal workers and the poor, who lead precarious lives facing **hungry and malnutrition** .

The healthcare sector is at the epicentre of this unprecedented **global pandemic**

challenges, and the private sector has risen to the occasion, by offering to the government all the support it needs, be it testing support, preparing isolation beds for the treatment of Covid- 19 positive patients or deploying equipment and staff in identified nodal hospitals . During the times of this pandemic, hospital and medical professionals from doctors to nurses to support staff, who are the brave frontline **soldiers fighting the war against Covid-19** and facing difficult times . There is an urgent call for action to address the immediate need of the sector and consider the recommendations for financial stimulus for the **private healthcare sector**. With large reduction in patient footfall and increasing operating losses the **Indian private healthcare sector needs a financial stimulus**.

Hospital operators, which have always been considered steady revenue and Cash

generators, have not been spared by the **pandemic** . Stock of Apollo Hospitals, Fortis ,

healthcare, Narayana Hrudayalaya, and Aster DM, which were trading near their all- time high in **January and February**, have corrected by **23-42**

percent since. Investor sentiment has been significantly hit after the outbreak and the lockdown is hurting business prospects of private healthcare services providers even more .

Fast – tracking of implementation of targets for public health emergencies within **National Disaster Management Plan Guidelines** for biological disasters have been in existence since **2008 (BPHE)** was added as a part of the **National Disaster Management Plan (NDMP)** itself in the most current version updated in November **2019**, with the objective of enhancing the resilience of health system by integrating disaster risk reduction into all levels of healthcare.

The scaling of traditional public health approaches. In parallel with the surge in critical care, countries also need to think about building surge capacity in traditional **public-health approaches**, disease surveillance contact tracing, and targeted quarantine . Quarantine facilities help localize hot spots and prevent a broader resurgence .

Aviation is the worst-hit sector, with both international and domestic flights cancelled on a account of lockdown . **Directorate General of Civil Aviation (DGCA)** has issued circular that no decision has yet been taken on the resumption of operations after **May 4** and also asked the aviation's companies to refrain from making any fresh booking .The key factors affecting the aviation industry after the pandemic include the decline in tours and travels as a large number of international as well as domestic flights are getting cancelled all across the globe to curb the transmission of virus . The Governments all across the globe are cancelling the visa of **foreign people** and locking down affected area which is also one of the major reason behind the slowing down of the aviation industry.

The global Aviation industry report is segmented into passenger **airlines, cargo airlines, aircraft**

manufacturing companies, airports managing companies, and catering and other service providing companies . Out of which passenger airline segment is expected to get affected most along with catering and other service providing companies . Cancellation of airline order may also be witnessed in the near future by the airline companies affecting the airline manufacturing companies .

The **global economy** could shrink by up to **one percent in 2020** due to the **corona virus pandemic**, a reversal from the previous forecast of **2.5 percent growth**, the **UN** said, warning that it may contract even further if restrictions on the economic activities are extended without adequate **fiscal responses** . The analysis by the **UN** department of **economic and social Affairs** said **the Covid-19 pandemic** is disrupting global supply chain and international trade with nearly **100 countries closing national borders** during the past months, the movement of people and **tourism flows** have come to a screeching halt, “ millions of workers in there countries are facing the bleak prospect of losing their jobs . Governments are considering and rolling out large stimulus package to avert a sharp downturn of their economies

which could potentially plunge the global economy into a deep recession .

It has become challenging for businesses to keep their financial wheels turning during the **lockdown** period due to less revenue churn and the **general uncertainty** in the **global financial environment** . Unfortunately , the impact in **start-up's or small business can be** way more brutal as they have scarcer cash reserves and **smaller margin** for managing sudden slumps . The ripple effect of this shutdown will have a key impact on **Indian economy**, as all **business sectors** get affected resulting in low revenue generation due to an eventual halt/slumps on the sake of product and or services.

It is expected that Indian's **growth rate in FY 2020-2021** will be down to **2% from a range of 4.7% , - 5.2%** as predicted earlier by the rating agency **ICRA** . **So , during such testing times , start-up entrepreneurs** will have to adopt to a new set of rules and be mindful of the following aspects to **alleviate risks and to survive the slowdown caused by the impact of Covid-19** .

“IMPACT OF COVID-19 ON DIFFERENT SECTORS ON INDIAN ECONOMY”

3rd Place

Ms. Pallavi Kumari,

FY BBA, Management Education and Research Institute, affiliated to Guru Gobind Singh Indraprastha University

Novel Coronavirus (covid19), a large family of viruses which is disrupting the people and the economy as well. The COVID19 outbreak, now a pandemic, according to the **World Health Organization (WHO)** is rapidly involving into a human tragedy, and disrupting economic activity in a wide source of effected countries. In order to suppress, the effect of covid19, Prime Minister Narendra Modi announced a nation-wide complete lockdown in effect from 25th March, 2020. And this brought as much as **70 percent** of the economic activity, exports, investment, aviation and discretionary consumption to standstill, and therefore it can be considered as a world largest lockdown affecting **approximately 1.3 billion population in India**. Financial market across the world are experiencing intense volatility and financial health has tightened worldwide. The **RBI (Reserve Bank of India)** is also taking aligned measures to ensure that financial market and institutions remains sound and resilient.

With coronavirus pandemic rising every day, the Indian economy is currently into an

unprecedented scenario and going through a major slowdown. The world of work from different directions are being devastated by these problems, the companies are finding it difficult to sustain in this environment. And so, they are forced to take tough decisions like cutting down

salaries, giving pink slips to employees and opting for cost cutting measures. Indian businesses are having “deep impact” due to this devastating virus and jobs are at higher risk because firms are looking forward for some reduction in manpower over the coming months. **Federation of Indian Chambers of Commerce & Industry (FICCI)** said in a statement *“Unless a substantive economic package is announced by the government immediately, we could see a permanent impairment of a large section of industry, which may lose the opportunity to come back to life again”*. The covid19 pandemic will severely impact the growth across all the regions. The GDP growth projection by **International Monetary Fund (IMF)** is **1.9 percent in the year 2020** for India because the global economy is affected by this pandemic, which is the worst downfall since the Great Depression in the 1930s. It is assumed by the analysts and industrial bodies that – this is one of the world's biggest lockdown and is estimated to have wiped of **₹7-8 lakh crore** during the 21-day period from the Indian economy.

Aviation Industry- All aspects of airline sectors are taking a hit – Airlines, retail, and airport operations. As such in India, aviation sector has been quite fragile, a few aviation companies are still in the start-up mode and few others were already challenged for operations. Almost 15% of aircrafts have been grounded and in coming days this figure may increase further. There is at least a **20% impact** on the **Passenger Load Factor (PLF)**, which was at 90% before covid19 came into picture. Airlines industry can see its business has **slumped about 75%** this March as compared to a

year ago. Considering the current environment there could be a delay in taking of aircraft deliveries and that will not only affect the airlines manufacturer like **Boeing and Airbus** but also affect the airlines as many of them operate on a sale and lease back model. Calendar year of this time will be very critical. If the government does not take off the restrictions of the airlines sooner, then the airlines company in India will declare operation losses.

Agriculture Sector- The coronavirus lockdown has severely disrupted India's agriculture sector. Now with extension of lockdown, there are worries that India's most vulnerable group of people will suffer. The agriculture sector employs nearly half of the work force in the country, contributing **17.5% of the GDP**. Despite of the fact that the government has assured restarting of harvest, most of the farmers fear uncertainty for standing Rabi crops. In Gopalganj, a district in Bihar, there is an absence of farm-worker and are forcing entire family to salvage the produce. In Gohana, a district in Haryana, farmers are staring huge financial losses, owing to untimely rain and hailstorms. In Ulhasnagar, a district of Uttarakhand, the farmers have cultivated Marigold, but they are worried with no means to sell, and so, the flowers are now being dumped. The demand for flowers in market is almost nil, hence, forcing the farmers to destroy the flowers. In 2019, the Indian flora-culture market was worth **₹18,870 crore**, but in-turn this pandemic induced lockdown has been a dampener for the flora cultivators of the country. India's peak farm activity happens between April and June, this is when the winter crop Wheat, Rice and Pulses are harvested and sold. It is also peak season for fruits, while the government has assured that every grain, fruit will be brought but it will need a mammoth effort.

Entrepreneurs- This pandemic is causing lots of

risk for small business and entrepreneurs. The entrepreneurs should be prepared for the worst and then readjust if the situation improves. It is not a good idea for them to take “wait and watch” approach and specifically hoping that some clarity would emerge in the near future. Due to this lockdown, there is a chance that entrepreneur's any kind of receivable might get delayed, their customer may end up asking for price cuts or worse churning and their contacts might take much longer than usual. Therefore,

this the time for all the business and entrepreneurs to stay deeply connected with their teams and customer. With the given rapid evolution of the covid19 situation, they should communicate with their external stakeholders with open and transparent updates. They should understand the key challenges that are present for their customers and lends support in any way possible. Those who will survive in these harsh conditions, will learn to thrive in any condition.

Fashion Brands- The fashion industry is witnessing a major downfall due to the widespread of covid19. With government regulating the movement of the citizen along with the market closed down by 31st March, 2020, the fashion market such as Shahpur at, Hauz khas, and famous designer fashion hubs like Meuruli and Khan Market stands deserted, bringing down the sales by 80%. Now all the fashion brands such as Tommy Hilfiger, Calvin Klein, Ritu Kumar, Arrow, Jack and Jones, Fab India, etc all are planning to push their spring-summer sell connection till October 2020, or pre -Diwali to clear up all the inventory piled-up during lockdown. Therefore, the sales of **fashion brands fell by approx. 70%** since fears over the virus intensified in March 2020. **Retailers Association of India (RAI)** organised a webinar, wherein various fashion Companies like Aditya Birla Fashion, Reliance fashion, Lifestyle,

Landmark Group, Future Group, retailers said **“we will skip pre-fall clothing completely and will instead plan production of autumn-winter collections”**.

Due to disruptive covid19 pandemic, the damage that has ben done in the previous few months will definitely last for a longer period of time. Although the government is taking various necessary steps that will not damage the economy further. ***Ms. Gita Gopinath, Chief Economist of IMF said “the reluctant on part of consumers and business to spend has resulted in subdued demand, further the businesses in India are dealing with the supply shock and this will cause a production slowdown. As precuring raw material for manufacturing of even an essential goods and***

transportation faces serious obstacles”.

Inferring from this article, I hereby conclude that, the financial year has witnessed an arduous start. The coronavirus not only affected the well-being of general public but also of the Indian economy. The government is incurring great losses, thereby, resulting in the impotence of expenditure of the government. There is an urgent need for the government authorities to take measures to look after the people who belong to the poor and vulnerable society during this pandemic. Many sectors under Indian economy are facing tremendous pressure due to the lockdown. The downfall in the GDP projection may causes severe problems in the Indian economy.

IMPACT OF COVID-19 ON VARIOUS SECTORS

Divya Gopakumar

12th Arts

SIA Junior College Dombivli (West)

Can we dismiss the issue of the recent pandemic – Covid 19, with few intellectual engagements and allow it to go into oblivion forever? The rampant epidemic unsparingly has made its shuddering presence all over the world by laying its icy hands on lakhs of people across the globe. The coronavirus, said to have originated in China, has hardly left any area untouched. It has proved to be an impartial, lethal attack of Nature on everyone alike – the elite, the common man the underprivileged, the young, the aged and so on. The severe acute respiratory syndrome coronavirus 2 (SARS – COV 2) has also left its seemingly indelible presence on most of the important sectors of the country. Agriculture is considered to be the backbone of our country, with the last few decades India being very successful in the area of agriculture. Indian industries are daily fed by the agricultural produces. Several cottage industries too depend upon agriculture. Agriculture, termed as 'the soul of Indian economy', by Mahatma Gandhi has been worst-hit by the recent pandemic. Currently, it is the peak of rabi season in India and crops like wheat, lentil, etc. are at the harvestable stage. This is also the apt time when the farm harvests reach the market. Any severe disruption to the supply of perishable fruits and vegetables, dairy products, fish, meat, etc., meant to meet the increasing demand of the consumers, can create irreparable damage to the supply chain. At places, the harvesting and post-harvest operations have come

to a standstill with the migration of workers from certain parts to their native places. The smooth functioning of the supply chain with proper safety measures for the people involved is of paramount importance. The on-going lockdown coincides with the rabi harvesting season. Thus, farmers find themselves in a precarious condition. The Union Home Ministry's circular waiving restrictions on the inter- and intra-State movements by farmers and labourers, has provided some relief to the farmers and labourers. However, the challenge for the government remains the safety and welfare of the farmers and labourers from Covid infection. Various businesses such as hotels and airlines are cutting salaries and laying off employees. This pandemic has also adversely affected major companies in India such as Larsen and Tubro, Ultra 2 Tech Cement, Aditya Birla Group, Tata Motors, etc., who have temporarily suspended their operations. Consumer goods companies in India too have reduced operations in order to focus on essentials. The former RBI Chief, Raghuram Rajan, on 4 April opined that the coronavirus pandemic in India may just be the "greatest emergency since independence." Moreover, in the words of the former CEA, Arvind Subramanian, India would need a Rs.720 lakh crore stimulus to overcome the contraction caused due to the pandemic. Increasing the threat of unemployment, around 140,000,000 Indians have already lost employment in the lockdown. Several young start-ups have been badly affected as funding has fallen. The tea estates have been unable to harvest owing to the lockdown, thereby, rendering the entire Darjeeling tea based tea industry to witness a major fall in revenue. The E-commerce sector too

has come under major attack with Amazon, Big Basket and Grofers curbing sale of non-essential goods in order to focus on essential needs. Due to the lockdown, they run only restricted services. The Defence sector too would fail to witness any new defence deals in the beginning of the financial year 2020-21 due to the global pandemic. Confederation of Indian Industry (CII) has estimated that India's GDP for financial year 2020-21 will be between 0.9% and 1.5%. It is alarming to note the words of the former Chief Economic Advisor to the Government of India who said that India should prepare for a negative growth rate in financial year 2020-21. Even in such bleak conditions, there are such great souls, who can be called 'corona warriors', who struggle day in and day out in order to combat this pandemic. In fact, the health care sector assumes the epicentre of this unprecedented global pandemic challenge, by way of offering their full-fledged support and co-operation to the government. Whether it is testing, preparing isolation beds for the treatment of Covid 19 positive patients or deploying equipment and staff in hospitals, the people belonging to this sector, especially the doctors, nurses and health workers have been on the frontline. The Prime Minister's call to honour the health care professionals would indeed go a long way in boosting their morale. The efforts taken by the healthcare sector to contain the virus is highly laudable. One is compelled to salute these brave frontline soldiers who are fighting the war against Covid. Truly, the government need to arrange for and provide necessary benefits and incentives to such dedicated and committed group of 'angels' who do not dither to put their own lives at risk for a national cause. Moreover, every citizen is duty-bound to co-operate with the health workers and abide by the norms and discipline prescribed by these workers from time to time in an attempt to

make our world worth-living once again. 3 Sadly, the aviation sector has been drastically grounded and close to bankruptcy as a result of the Covid 19 pandemic. Hardly any aircraft is even in a position to refund passengers who had booked flights scheduled to operate during the lockdown. Moreover, the staffs of IndiGo, Go Air and Spice-Jet are experiencing a steep across-the-board salary cuts. This sector too projects a very dismal picture in the wake of the pandemic. The monitoring body of civil aviation in India, the Centre for Asia Pacific Aviation (CAPA), puts forth that "Most Indian airlines have not structured their business models to be able to withstand even regular shocks, such as elevated fuel prices or economic downturns, let alone once-in-a-century events." The Covid 19 pandemic has brutally attacked even the global economy and brought it to a grinding halt. J P Morgan reckons that the coronavirus pandemic will push the world economy into a 12% contraction over January to March. The rapid spread of the virus is said to drag down the global economy still further; and cities in lockdown, businesses downing shutters, staff layoffs, etc., are likely to mushroom. This is evident in the record breaking fact that more than 3 million Americans filed the unemployment benefit claims. Economists view that this claim is bound to rise to 4 million. China, though have managed to contain the virus, find themselves in a pitiful condition with getting neither the imported components from worst-hit countries like the US and Europe nor finding demand for its products. The decision to provide immediate debt relief to the world's poorest countries by the World Bank and International Monetary Fund, as they grapple with the human and economic consequences of the pandemic, comes as a sigh of great relief to several developing and under-developed countries. At this moment, we are witness to a dramatic spread

of Covid 19 that has disrupted lives, livelihoods, communities and businesses worldwide. Unless all stakeholders, especially global business, urgently unite to minimise its impact on public health and arrest its potential for further disruption to lives and economies around the world, the risk and impact of this unprecedented crisis cannot be mitigated. What has been the common man's experience in such trying times that India is facing today due to the coronavirus pandemic? R.K. Laxman's dhoti-clad comic strip character (statue of the Common man in Mumbai) that represented the average Indian's trials and tribulations has now come to be seen wearing a protective facemask in Mumbai, as a precautionary measure against the new virus. The precarious and touchy situations of the marginalized communities during this hour of crisis is a loud cry due to loss of livelihood and lack of food, shelter, health and other basic needs. 4 The health and well-being of this section of the population remains to be urgently catered to. Tens of thousands of out-of work-migrant workers stranded at places with rail and business services terminated wait to eagerly reach their destinations. Shortage of food is what stares at another group of people. Thousands of homeless people await protection. A silver lining amidst the dark story however is the dramatic drop in air pollution in coronavirus hotspots around the

globe. But will this condition prevail even after the lockdown is lifted? This favourable situation can persist if we believe the words of Wendell Willkie, who said, "In no direction that we turn do we find ease or comfort. If we are honest and if we have the will to win we find only danger, hard work and iron resolution," and resolve and labour hard to take utmost care of our environment. Commenting on Kerala's highest recovery rate in the Covid-19 case, with 93.24% far beyond the national average of 28.71%, Dr Amar Fettle, Kerala's nodal officer for infectious diseases said, "I would love to say, all the support and loving care is causing them (Covid 19 patients) to recover." Thus, love and compassion towards each other is the need of the hour without which humanity cannot survive. It would, then, be wise on the part of mankind to ruminate on the happenings in his/her surroundings; and the current pandemic, whether natural or man-made, take time to repair his/her several undoing's caused to Nature and fellow-beings with a sincere prayer on his/her lips, "Loka samastha sukhino bhavantu." Let us then, light the lamp of positivity to dispel the darkness around us. Mankind has witnessed and fought numerous such epidemics in the past and likewise will garner understanding, grit and fearlessness in order to emerge successfully from this grim situation too.

Introduction:

The Corona Virus Disease (COVID-19) was first identified in Wuhan, China during December 2019. The name - COVID19 was given by WHO. There is some possibility that the virus originated from seafood. COVID-19 is now a cause of huge number of deaths across the world. No proper drug or vaccine has been developed yet for the treatment of this disease (as of April 2020). Clinical trials and research are being carried on the development of drug and vaccine. Many of these symptoms are similar to those seen in common cold and flu. However, we all need to stay alert during this pandemic and receive medical treatment in any case. This disease also spreads if a person touches a contaminated surface and then touches his mouth, nose or eyes without washing his hands.

Prevention:

1. Wash hands regularly with soap or sanitizer.
2. Cover your nose and mouth while coughing.
3. Keep a distance of 1 to 3 meters from the affected people.
4. Stay home and follow the instructions given by the local government.
5. Wear a mask (M95), when you move outside the house.

It is always best to consult a doctor, if anyone has any symptoms of the disease. Along with the medications, it is also necessary to have a positive mindset and faith that we can come out of the tough situation. Panic and fear can worsen the conditions.

Impact Of Covid-19 On Agriculture and allied activity: -

The practice of agriculture is called farming. It is a business activity of raising animals, growing crops in the rural area. With a burgeoning population,

there is a corresponding rise in food demand in India. However, the negative externalities of the Green Revolution, particularly the environmental trade-offs and over reliance on staple cereals have since been realized. It is thus desirable to switch over to a suitable model with a far stronger nutrition focus, where diets are more diverse. A post-COVID situation offers that unique opportunity to repurpose the existing food and agriculture policies for a healthier population. The poor sections of society are always the hardest hit in any disease affecting Indian farm households. The focus of the government therefore should be to protect the lives of every citizen. People living on agriculture and allied activities, are losing their income from informal employment lockdown period. To sustain the demand of agriculture commodities, investments in key logistics must be enhanced, the small and medium enterprises, industries requiring raw material from agriculture etc. also need special attention so that the rural economy does not collapse. The issues facing agriculture in near future are :

1. Labour availability
2. Inability to access markets for produce due to issue in transportation as well operation of markets.
3. Possible shortage ahead
4. Need for contingency plan
5. Shortage of workforce
6. Migration issues

Impact on Employment

There are numerous doctors, nurses and other health workers who work with patients to diagnose and treat health issues related to COVID19. There is a huge shortage of essential medical treatment kits, masks, hand sanitizers and ventilators. The health -care industry is seeing a huge crisis in the supply of necessary medicines and equipment due to COVID19. Hospitals was the only sub industry to see a gain in employment. Hospitals would need more staff during the Coronavirus pandemic to take care of prevention and treatment. The latest National Health Profile

2019, released in October 2019, shows India public expenditure on health has been less than 1.3% of the Gross Domestic Product or GDP for many years. The NHP 2019 also shows how India's public investment is one of the lowest in the world. Poor public investments in health- care sector have its human costs. India took a major initiative in health care when the Pradhan Mantri Jan Arogya Abhiyan (PM-JAY) was launched. It is fully funded by the taxpayers money, Centre and States share funds at 60 :40 ratio. The fight against COVID-19 would be a long haul. India aims to win this through social distancing and other preventive measures. Our government has taken several measures to control the spread of COVID-19.

Impact of covid-19 on the Aviation

Impact on global Aviation industry due to covid-19 pandemic: According to the World Bank Organization in 2018, around 4.2 million passengers travelled around the globe. Factors that were driving the aviation industry before the COVID-19 pandemic includes increasing disposable income all across the globe.

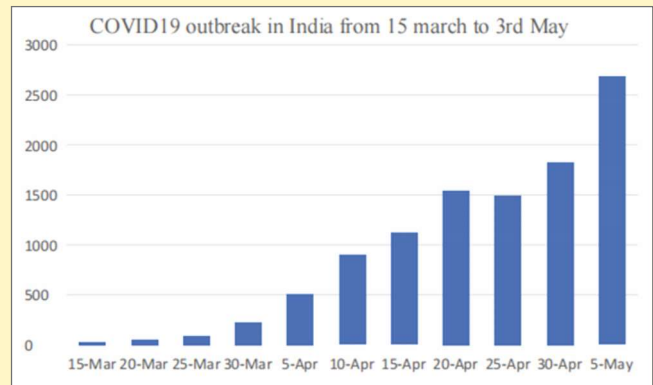

The global Aviation industry reports mention cancellation of aircraft order by the airline carrier companies may also be witnessed in the near future. Impact of covid-19 on the aviation industry can be observed in each region including North America, Europe and China, Asia pacific. Qatar Airways suspended all of its flights to and from Italy which was one of the worst hit countries. Emirates also halted most its passengers operation as a result of the pandemic. Now airlines and airport management companies are seeking bailout packagers from the government.

Recovery of the loss during suspension of airline:

The long term impact depends on duration and magnitude of the outbreak and containment measures, the degrees of consumer confidence for air travel and economic conditions etc. International Air passenger Traffic has witnessed an overall reduction of international passengers ranging from 44% to 80% in 2020 compared to 2019. There has been an estimated loss of two -

fifth of passenger traffic and 45% or over USB 78 billion airport revenues in 2020. Global merchandise trade volume has reduced by 32% in 2020 compared to 2019. Outbound travel and inbound travel to India will be at an all time low. On account of COVID-19, the Indian tourism and hospitality industry is sharing at a potential job loss of around 38 million, which is around 70% of the total work force.

Outbreak of COVID19 in INDIA:

As per report of Ministry of health and Family welfare (MHFW) India has rapidly seen increase in COVID 19 cases. The first case was reported in India on 30th January 2020. Since then, there was an exponential outbreak. Although the Indian government-imposed lock-down on the people, maximum cases are continuously being reported in Mumbai, Delhi and other metro cities across the country. As per graph represented in figure 1, The COVID-19 cases have continuously increased after the Government imposed first Lock-down on 22 March 2020. In the lock-down all industrial activities, transport and educational institutions were suspended for the first 21 days. But after this, the government has extended the lockdown twice upto 17th may 2020.

Figure 1. COVID 19 cases reported in India (as per Ministry of Health and Family welfare)

As per graph, it can be seen that the COVID cases doubled only about after a week. If the COVID19 spreads at this rate, the cases reach ten thousands /lakh very soon.

PASSION-FOOD

We all come across various things in our lives such as clothing, luxuries, a huge mansion and lots more. But do you know what is the most important thing to add on to our passion? Yes, it is food. We all have different taste, likings, and flavors of food. It maybe Indian, Chinese Mexican, Italian, Continental and lots more which may bring lot of water from our mouth. Food is an identity for any country or region as it helps to make a symbol of that particular region. But do you know where did the above mentioned food come from? Let's find out. The first up is Italian. We all know when we hear the word Italian food the first food which will come in our mind is pizza. Pizza is basically dough bread wherein all kinds of topics are kept such as mozzarella cheese, pizza sauce, half cut olives, some capsicums and many other toppings. The first pizza ever made was in the Italian town of Gaeta at around 10 th century and the modern pizza was made in Naples. Since then pizza has become so much famous around the world that people would have it at any time of the day whether it may be breakfast, lunch or dinner or maybe as a snack. It is a truly delicious dish and since it is made within a few minutes in a highly heated oven so this the first food which most office goers or workaholic people eat it while they do their work. The next is Chinese food. The slurping sound of the noodles while we put into our mouth makes us feel more mesmerizing and feels relished while we eat the hot and sizzling noodles. But how are noodles made? Noodles are made out of simple dough wherein it is cut into very thin slices or sometimes broad slices. It is mostly made in a boiling water with some spices, some vegetables, and meat of our choice is being added into the noodles. It is the staple food of China since the Han dynasty and it is most predominantly eaten in the Asian countries such as Japan, Vietnam and China. The next up is our Indian food. While many countries have only one or two types of food, India has a wide variety of food right from the North to South and from West to east. In

the North we have various types of food such as Chole Bhature, Aloo Paratha, Gol gappe or Pani Puri, while in the South we have Masala Dosa, Puttu, Appam, Pongal, Idli Sambhar, while in the West we have Vada Pav, Dhokla, Gathiya, Misal Pav, some chilled wine from the state of Goa, while in the East we have Rossogula and you just name it. We have such an immense variety of food in our country that people just flock in any nearby food stalls and grab their favorite food and fill in their stomach. In fact the Indian food is considered the best food as it is filled with various types of varieties. But some people hesitate to eat Indian food as it is very spicy but that's not true. There are some Indian foods which are less spicy or not spicy at all.

Well other than the above mentioned famous food around the world there is some more food around the world which is not much familiar to all of us but still we have to find out while we travel around the world.

So all the foodies over there pack up everything and find out your favourite food around the world to fulfill your passion!

PASSION - A DEDICATION TOWARDS OUR DREAMS

What is Passion- It is something that does not let you sleep at night. It is something that makes you want to do something different. An emotion that can overpower all other emotions. Passion could be anything and can be discovered at any age. Passion does not have an expiry date. But what is important is that how loyal & dedicated are you to your passion.

It's like everyone has a passionate eye but only some individuals have an urge to get through anything to get their passion fly in reality, A lot of people can identify their passion but are not able to follow it for long. They might be crazy or enthusiastic for a while but then with busy lives and personal and professional commitments they lose the zeal. Passion is something you always need to find time for rather than excuses or I will say why not try to make your passion your profession I know sometimes that's not possible but not giving a single chance to your passion that's not done

[Humne toh koshish ke bina hi ye maan lete hai ye humse na ho payega]

I also have a passion in my dreamy eye passion to be an event manager & a wedding planner and I can go out of my limit to achieve it because it's something that lightens up my face, it's something I live for, it's something my eyes ask for, it's a commitment towards my passion. There is nothing like working for your passion. So don't keep thinking that one day you will find the right time for this. Now is the moment and now is the perfect time to start. Don't let your passion get out of your heart in this lost world. Because when you are 70 years old, you won't remember who your boss was or how much was your salary, but you will surely remember the lost dream or a sparkled eye you got when you followed your passion.

TANVI BHALEKAR , SY BMM

BECOME A CHANGE SETTER

What's the reason that we're born here?
 Pray tell me, let me hear,"
 Asked a king to his wise minister,
 And he did seem a little sinister.
 O my lord! We're born to serve,
 To those people, who really deserve.
 I know you've surely heard, my lord,
 That service to man is service to God!

Tell me a reason to do so,
 Do tell me, I'd really like to know.
 What benefit do we really get?
 Tell me the truth, do not fret.

Every mortal that ever draws breath,
 Has a job to do before it's death.
 And that is to serve all,
 Maybe it be big or small!

Helping others is a bliss,
 And it really is a bless,

This is a duty to be performed by everyone,
 Not just by a single one!

Happiness truly arrives when,
 One wholeheartedly helps his own brethen,
 One should never turn his back,
 On someone, whether he's white or black!

So let us all learn to serve today,
 So that someone else may live another day!
 Instead of not paying any heed,
 Let us help someone in need!

Let us start by doing small tasks,
 Before someone just comes and asks.
 Let us change for the better,
 And become a change setter!

BEING HUMAN

Even though we are human beings,
 We must not crave for silly things.
 We must not be greedy,
 And always help the poor and needy.

Get yourself educated!
 Get yourself updated!
 And more importantly, use your mind,
 And do not get yourself left behind!

Do your best and try to win,
 Throw your pride in the dustbin.
 Get inspired from the persons who are
 wise,
 And from the persons who sacrifice!

Do not look for a crown,
 And when you lose do not frown.
 To see the truth open your eyes,
 And do not fall in the world of lies!!

TRAVELOGUE

The World is a Book, and those who do not travel read only a page. Traveling helps you to know about culture, tradition, dress, food and lifestyle of a particular region. My first journey was when I was 4 months old. Back then, my mom, holding me in her arms, was travelling back to her in-laws from Kolhapur. Time passed and by the time I was three years old, I started schooling. During the summer vacations, I got a chance to visit North India. Yes, my mom was packing all my stuff (Of course, I was unaware of what was going on. I realize that now.) I was just clinging on to my mom's saree. She smiled at me, picked me up, kissed me, and continued to work. We first went to Delhi by train. The wonderful sight of the World Wonder & Taj Mahal is still clinging on to my mind. I also visited the Red Fort and the Lotus Temple. How beautiful they all were! We then continued to Haridwar and Rishikesh. The chilly atmosphere, the beautiful sunrise and the scenery still linger in my mind. I remember my mother trying to dip me into the holy Ganges for a holy bath. Filling the mug and pouring the water on me was just impossible, as the current was so strong. My mother tried hard to keep me away from the water as she knew how much I loved to splash around. (I can now imagine why she was filled with fear and holding me tight in her hands.) We then moved forward to Badrinath. We were lucky enough to escape a landslide. We still had a long way to go to the temple. So, I was seated in a basket carried by a man. This was called Pitthu. After worshipping Lord Vishnu, we moved to Kedarnath via Joshimath. This journey was unforgettable. I was made to sit on a pony and for safety reasons I was literally tied to the pony. Initially I cried a bit as I had to part from my mother. We had to travel 14 kilometres to reach Kedarnath Temple. The melting ice, the icy rivers, the sun shining over the snow-clad peaks and the shivering atmosphere were all unforgettable moments. This was one of the best journeys in my life. One of my trips is to the Southern Tip of India. Yes, I have been to Kanyakumari as well. I have seen the colourful Triveni Sangam which is the collision of the Bay of Bengal the Arabian Sea and the Indian Ocean ; at Kanyakumari. I have also been to Cochin. I had a boat ride there. I also saw Mini Singapore and Late Dr. Abdul Kalam house. For once you have tasted flight you will walk the earth with your eyes turned skywards, for there you have been and there you will long to return. At the age of nine, I travelled overseas to Papua New Guinea (P.N.G.), a country to the northern part of Australia. There I used to live in Rabaul, which was the previous capital of the country. For that I had to leave my grandmother alone. I felt sorry but I had to go there. I left my grandma with a heavy heart. There were innumerable number of coconut trees, mango trees and banana trees. Rabaul actually has an active volcano! However it was one of the main reasons why many people came to visit Rabaul. Since it was an island, it was surrounded by seas on all sides. The seas were sparkling. I was taught swimming there. Also, there was greenery wherever you could see. There is a place called Blue Lagoon in Rabaul. On one side of the road there was a mountain and on the other side was the sparkling deep and blue sea. I once went there at the time of sunrise. Oh my! How beautiful it was! It is the most beautiful sight I have ever seen. I had a good experience in Rabaul and on our way to India we halted at Singapore. When we landed in the beautiful country of Singapore, it was so neat and spic and span. We went round the city. My trip to Sentosa Island in a rope car was remarkable. The view from the rope car was simply fabulous. The Merlion(Symbol of Singapore) could be seen from far, welcoming all. I enjoyed the fun rides, hydro-electric ride, dinosaur park and many many more. I did not miss my popcorn and ice-cream there too The Song of the Sea with the colourful musical fountains mesmerised all the spectators. We returned to the hotel in a subway train via Singapore Harbour. I also enjoyed the tram ride at the Night Safari where I was face-to-face with wild animals. It was a thrilling experience. Wherever you go, go with all your heart. I returned to India with a lot of memories. Whenever I am alone or sad, I recall these sweet memories. I wish to travel more in my future. Certainly travel is more than seeing of sight; it is a change that goes on deep and permanent, in the ideas of living.

TRAVEL AS A PASSION

To Travel is to explore
and to get knowledge more..
To travel for the Experience
Which is with its compliance...
To travel is to learn
Through the guides to earn...
To travel for a while
Which might help us in mile...
To travel is for joy of the days
Which we find through other ways,
But memory of travel counts forever,
And can't vanish away from life
forever.....

IT'S THE WILL, NOT THE SKILL

Rising from the ashes,
You got to catch the fire
Burning in the flames,
Don't need to be the woods you desire

Looking for an opportunity,
Go and seize the moment
The time flies by,
When you're hung on to the end

Counting on fingers,
The perfect ten turned up
A decade is just a number,
Helping you level the game up

Feeling the appetite,
Try harder for your meal
Saying things to your mind,
It's the will, not the skill

SAFAR KA HI THA MAIN

Badnam hua who naam
Jiska kaam na sahi,
Kar mehnat na aaram
Tera daam ho sahi,
Jujhta tu safar mein
Apne aashiyane se kehna,
Safar ka hi tha main
Mujhe safar mein hi rehna

Hadse tu apne
Aage na badh,
Jho baat kahi jaye
Tu wahi pakad,
Asa kehte who humein
Jinhone kal ko tha sehna,
Safar ka hi tha main
Mujhe safar mein hi rehna

Aayi mushkile kayi
Tho kisika intezaar na kar,
Terkar jana wahi
Tu apne khuda ke dar,
Hoshla buland hojayein
Na rokh jazbaton ka behna,
Safar ka hi tha main
Mujhe safar mein hi rehna

Sukhne na dena
Apne khwahishon ka jharna,
Rukhne na dena
Khudko tum roz ubarna,
Jujhta tu safar mein
Apne aashiyane se kehna,
Safar ka hi tha main
Mujhe safar mein hi rehna

ARTIST ON TRAVEL

People always ask how travel has changed me. If I look back at who I was before I began Traveling and compare that who I am now, I would have to say that travel has made me a Better and more well-rounded person. I'm way cooler now than I was at 25 when I first left to Explore the world. Infact, I think travel makes everybody a more awesome person. We and our Travels way better off than when we started. I'm not saying this to be conceitedoregotistical; I'm saying it because I believe that travel is something that makes you not only a better human Being but away cooler one too. The kind of person people gravitate toward and want to be around. How and why does travel make you more awesome? Let me count the ways:

1. More social – It's sink or swim on the road. You either get better at making friends or you end Up alone, crying each night into a pillow. You learn to make friends out of strangers and get More comfortable talking to new people. When I first started traveling, I was kind of an introvert And uncomfortable talking to those I didn't know. Now, I'll happily talk to strangers like we've Been best friends for years.

2. Better at conversation – Travel not only makes you comfortable talking to strangers, it makes You better at it too. After talking to people all the time, the same questions get boring. You start To even bore yourself. After a while, you don't care about where people are from, where they are going, how long they've been traveling. Those kinds of questions don't Actually tell you anything about the person. You'll get better at small talk and how to ask interesting questions the ones that matter and tell you more about the person.

3. More confident – You've travelled the world. Hiked Mt. Everest. Dived the Great Barrier Reef. In short, you did awesome things. How can you not be more confident? How can you not be sure About your abilities? After accomplishing so much, you're going to feel a lot more confident in Your ability to achieve anything you set your mind to.

4. More adventurous – When you become confident in your ability to do anything, you do anything. Last week in Austin, Texas, despite not liking spicy food, I ate the world' shortest Pepper and some pure capsicum extract. Why? Because I wanted to. What's the purpose of life If not to breakout of your comfort zone? My mouth was on fire forages, but I'd do it again.

5. Less materialistic – On the road, you learn just how little stuff you actually need. You'll realize That all that crap they sell at the mall is pretty useless in leading a truly happy life. Coming home, you'll find yourself a minimalist simply because you realize what you need to live and what you don't. As they say, the more you own, the more it owns you.

Conclusion –Travel simply teaches you how to be happy. You'll become more relaxed, more confident, and see the world as a brighter place. Think about all the famous, successful people In the world. How many of these qualities do those people exhibit? A lot. Why? Because being outgoing, funny, social, happy, confident, and smart are all qualities that make people more Successful in everyday life.

LIGHTHEARTED

Caught up in routine
 Stuck in an imaginary future
 Overthinking things
 Caring way too much
 Or not at all.
 Making permanent memories
 With temporary people.
 Going with the flow
 Or just holding onto oneself too much.
 Either being too reluctant
 Or being too unequivocal.
 Either panegyriizing
 Or simply exercising
 floccinaucinihilipilification.
 Either letting go everything
 Or holding on to everything.
 Plunged into extremes
 We forget what's life
 We forget what's living like
 We get ourselves saturated
 Exerted So much so
 We forget what it's like to be
 Light-hearted.

PASSION

Everybody say work hard to win,
 And trust me its not at all a sin
 Working hard on what you want is good,
 It's like working for what you could
 I Wonder, those who said this,
 Did they ever think of what Passion is?
 Passion is being working from heart,
 Right to the end, beginning from start
 Being said working from heart,
 Right to the end, beginning from start
 Once you understand this thought,
 You won't feel bad for the pains you got
 Working hard... is only when you sweat,
 You get tired, and in the end you are wet
 But once you do it from heart and soul,
 You would feel like you are taking just a stroll
 When you do it what you want to do with passion,
 You bring out the best and you build innovation
 You start loving yourself than you loved ever,
 And trust me you are going to stop never
 Passion is the essence which you need to bring,
 Every effort you put, it would be like you sing
 A song of joy and you will hear the birds chirping,
 I won't be surprised, if you end up singing,
 So all those who are reading this little piece,
 I would tell working hard you should cease
 Instead doing things with passion is all you need,
 That will bring the joy in you and will help you to lead
 Seek within yourself Your own Passion,
 Thus you will finish everything in great fashion

कला

असं म्हणतात की आपण आयुष्यभर जोपासलेली कला ही आपण मरण्याआधी जिवंत असल्याचा एकमेव साक्षीदार असते. म्हणजे बघा ना माणूस बदलतो, त्याच्या सवयी बदलतात, त्याचा स्वभाव सुद्धा बदलतो. बोकडे बोल स्पष्ट होत जातात, रेंगाळणाऱ्या पावलांना धावायची सवय होते आणि धावता धावता आपण इतके पुढे निघून जातो की स्वतःच्या मनात डोकावून पाहतच नाही. वेळेसोबत बालपण सरत जात, त्यापाठोपाठ तारुण्य निघून जात, केस पांढरे होतात, हाडं ठिसूळ होतात आणि वाळू सारख्या एक एक गोष्टी त्याच्या हातातून निसटत जातात पण एक गोष्ट जी कायम त्याच्या सोबत असते ती म्हणजे त्याच्याकडे असलेली कला. ती आपल्या अंगी असेललं वेगळेपण दर्शवत असते. पुढे गेल्यानंतर मागच्या पाऊलखुणा पाहून मनाला हुरहुर लावून घेण्यापेक्षा पाउल टाकण्याआधीच तिला जपता यायला हवं. हो अगदी..... शेवटच्या श्वासापर्यंत!!

DIFFERENCES WON'T MATTER

I was playing hide and seek with my sister behind an old house in our neighbourhood. I finished counting and went inside the house to look for her. After looking at the most obvious places, I decided to have one last look in the hall. My eyes drifted towards a mirror. My eyes shot up in disbelief when I saw that my sister was not behind the mirror but inside it! After having watched millions of fantasy films, it seemed like I would be the protagonist in one myself. "Sara, wait up I'm coming", I screamed, waving both my hands.

Without wasting even a millisecond, I dived into the mirror. I found a tunnel inside it. After a journey that seemed like eternity, I landed out with a slight thud.

What my eyes beheld there was nothing short of bedazzlement. There was an entire world in the mirror. There were strange creatures everywhere. I saw a dog and an elf. The dog was panting with thirst and the elf was draped in layers of cloth. The dog had a bone in its mouth while the elf looked a pure vegan with vegetables on its plate. Everything about them was as different as different could be. I saw the two of them lying next to each other, looking completely peaceful and happy.

I suddenly felt my body shaking. I was out of the mirror within a millisecond. I saw Sara next to me. We both held hands and walked home, too shaken up to say anything.

Now, looking back at the incident, I realize how beautiful the world in the mirror was. Each creature was different from its contemporary from cuisine to looks to the way each dressed. Yet all of them lived so peacefully and contentedly. The world in the mirror represented a world full of diversities and possibilities.

Our world too can be as beautiful as the one in the mirror if only we open our minds and hearts and accept differences wholeheartedly. We can make the world a much better, happier and safer place by realizing that each of us is one of a kind, specially created and specially designed

A PASSION FOR DANCE

If you want to do something in your life transform yourself into something that you are passionate about. There are various types of passion in which each and every individual has for something. According to me, my passion is 'Dancing'. Dancing is more than just a sport, its a passion. It has inspired me a lot with incredible choreography, body language, facial expressions, speed, energy, different rhythms, etc.

Passion for dance has come within and that make me realise that I was born to dance. Through dancing I have learned teamwork as well as leadership. It helps to be in happy and relaxed state of mind. Dance is just like a beautiful art form and it is a way to communicate with people and it should be respected and honoured. I prefer to love more 'Ballet' and 'Ribbon' dancing because of its beauty and complexity. Dancing makes calm and relax even after a busy day.

Through dancing it has triggered me into positive energy and if you are in emotional state, dancing can reduce your pain and cure happiness. I have experienced that I have never be bored with it because there is a always room to improve. A 30 minute dance class can burns into 180-300 Calories which is good for heart and makes you stronger. It can balance our whole body with co-ordination.

Once my coach gave us heart-warming speech before walking to onstage. I'll never forget, at the end he said, "Each time you perform, dance not only with your hands, legs and feet; but also dance with every inch of your heart. Dance is also known as a hidden language of our soul and tries to express inner thoughts. The word DANCE says that:-

D- Dedicated

A- Athletic

N- Never gives up

C- Controlled

E- Emotional
