SIATechlink

Project Completed during Academic Year 2021-2022

- **SIA- MIS**

MIS is a centralized data collection system developed to record various activities conducted by departments and committees in the premises. It is part of E-Sanchalan software. It is developed in ASP.net wherein database management system is SQL server.

- **Online payment facility through payment gateway**

Online payment facility through payment gateway is an update in E-Sanchalan for online payment system.

The E-Sanchalan payment system will share payment link via an email on student's registered mail ids.

These links easily accepts payment in online mode without any complications. The link will get expired if payment will not done within specified time. The user can set limit to accept payments through link. The software allow to upload bank transaction report and generate fees collection report date wise.

Sub: Project Proposal for the MIS (Management Information Systems) software

Dear Mam

I, Mr.Sunil Gaonkar , would like to propose a development of software. It has been observed that we are collecting data manually which are related to activities organized in college premises under the departments and committees. I request you to give me an opportunity to develop the software as a part of E-Sanchalan for the benefit of the college where it will be authenticated by the faculty members, conveners and committee heads. I would like to involve Mr. Harshad Gupta in the development of this software.

Thanking you

Sub: Project Proposal for Online payment facility through payment gateway

Dear Mam

I, Mr.Sunil Gaonkar, would like to propose an update in existing payment collection system as a part of E-Sanchalan software. I propose to use payment gateway and also like to develop some forms related to the same. Online payment facility through payment gateway is an update in E-Sanchalan for online payment system.

The E-Sanchalan payment system will share payment link via an email on student's registered mail ids.

These links easily accepts payment in online mode without any complications. The link will get expired if payment will not done within specified time. The user can set limit to accept payments through link. The software allow to upload bank transaction report and generate fees collection report date wise.

I would like to involve Mr. Harshad Gupta in the development of this software.

Thanking you

Regards

Mr.Sunil Gaonkar

Project Name	E-Sanchalan Fee Collection Module updated with online payment gateway
Guide Name	Mr. Sunil Gaonkar,Mr.Harshad Gupta
Background	Earlier fee collection and issue of receipt was manual. Maintenance and reconciliation was difficult. So there was a requirement for automization of fee collection through payement gateway.
Objectives	To automize Fee collection and maintain year wise and student wise fee outstanding in E-Sanchalan. To automate the process through payment gateway.
Scope of Work	As the students who got admission increased, the manual labour became erroneous. So to curtail the errors, and make the process fast and efficient the software was developed,This has upgraded with online payment through gateway interface.
