A WALK THROUGH THE DECENNIUM

Quality education along with skill enhancement has become the need of the hour in current times. Hence, educational institutions need to be endowed with all essential attributes required to provide quality and comprehensive education that is fulfilling as well as marketable. The South Indian Association, established in 1948, has always been sensitive to the changing needs of education and adapted accordingly. As of 2019-20, it stands to be one of the strongest and oldest institutions providing good quality education to residents in and around Dombivli. The Association has also entered into the arena of higher education by establishing The S.I.A College of Higher Education in 2010-11. Another feather in the cap for the Association is establishing The S.I.A College of Physiotherapy in 2018-19.

The S.I.A College of Higher Education takes pride in reinventing itself year after year, based on the experiences of the past and needs of the future. It has seen a splendid growth in physical infrastructure as well as transformation of education from class-based to ICT-based. It has also invested in smart class facilities to make modern technology available for teaching and to meet the needs of the current and future generations. The number of students and teachers has increased manifold in the short span of time. Another important feature of the institution is that it believes in all-round education, and has invested in providing adequate facilities for sports as well as cultural activities for holistic development of the students. In addition, the institution has also established adequate forward linkages with industry experts so that students can get hands-on experience of market demands.

The college celebrated Foundation Day on August 29, 2019 to mark 10 years of existence. Eminent personalities from the University were invited to grace the occasion along with principals of different colleges. Language Club and Pratirambh- A junior college cultural festival were inaugurated on that day. Various cultural events representing the theme of the year- Passion were performed to mark the decennary year celebrations. Pratirambh was organized on 30 August 2019 where more than 600 colleges from Mumbai participated in different cultural as well as literary events. The fest was a huge success and received great feedback from all participants.

The college passionately works towards meeting all the needs and requirements of contemporary education in line with the vision of the institution, while preserving the goodness of traditional value-based education en route to the second cycle of NAAC.

न चोरहार्यं न च राजहार्यं न भ्रातृभाज्यं न च भारकारि ।
व्यये कृते वर्धत एव नित्यं विद्याधनं सर्वप्रधानम् ॥

(It cannot be stolen, nor it is the treasure to be submitted to kings and it is the property not to be shared amongst brothers and not a heavy object to carry, even though spent it keeps growing and that Vidya (knowledge) is the only wealth which is primary wealth of all wealth.)

VISION:

"The S.I.A College of Higher Education strives for comprehensive education by equipping students with latest skills and tools to acquire competence, quality education to face the dynamically evolving society."

MISSION:

"To develop rich pool of talented employable, professionals with strong foundation on ethical, moral values and social values to become responsible citizens."

OBJECTIVES:

- To sustain quality education through training and development with industry interface in diversified fields
- To develop scientific temper by encouraging and exploring various avenues for research
- To train students for industry expectation by encouraging them for internship
- To create avenues for employment with the support of placement
- To develop the spirit of competition, social awareness and responsibility, team work through NSS, Sports and Student Council
- To inculcate the values to become socially responsible citizens

FROM THE PRINCIPAL'S DESK

The college provides an ambiance for healthy teaching and learning environment. Today educational institutions need to adopt different strategy to face the challenges due to the fourth industrial revolution 4.0 which is transforming the world, technologies like IOT, big data, and artificial intelligence impacting the industries and workforce. It is the responsibility of the educational system to play a vital role to transform and produce workforce for working in this technological era. There is a need for the faculty members to adopt technological applications and new methods to place students at the center of the education process, "shifting the focus from teaching to learning". A smart approach between teacher-student interaction would create whole experience engaging and interesting.

All the best.....
