7.3.1 Institutional Distinctiveness

The SIATechlink: Incubation Center for Software Development is a vibrant ecosystem fostering innovation, entrepreneurship, and skill development among students, faculty, and alumni. Located within the college premises, this center provides a state-of-the-art infrastructure, mentorship, funding, and networking opportunities to transform ideas into scalable software solutions. The incubator supports projects across various domains, including Web technologies for Artificial Intelligence, Data Analytics, Internet of Things (IoT), and Mobile Application Development.

Objectives:

1. Encourage student entrepreneurship and innovation
2. Develop industry-ready software professionals
3. Foster collaboration between academia and industry
4. Promote research and development in software technologies

By establishing this incubation center, the college aims to create a thriving software development ecosystem, nurturing innovative ideas and talent, and contributing to the growth of the IT industry.

In the academic year 2023-24 the SIA-TechLink initiated three software developments E-Granthalaya, E-Ticketing and SIA-Feedback system.
